unified view of sediment transport by currents and waves i - Jun 14 2023

web in his early research the author van rijn 1984a b c has focused on sediment transport and bed roughness in steady river flow using a diffusion type of approach a set of equations has been proposed to describe the near bed concentration and the vertical distribution of the sediment concentrations over the depth

sediment transport part i bed load transport journal of - Feb 10 2023

web a simple expression specifying the bed load concentration as a function of the flow and sediment conditions is proposed a verification analysis using about 600 alternative data shows that about 77 of the predicted bed load transport rates are within 0.5 and 2 times the observed values
