Evidence Of Language:

The Evidence of Language William Foxwell Albright, T. O. Lambdin, 1966 **Origins of Language** Sverker Johansson, 2005-01-01 Sverker Johansson has written an unusual book on language origins with its emphasis on empirical evidence rather than theory building This is a book for the student or researcher who prefers solid data and well supported conclusions over speculative scenarios Much that has been written on the origins of language is characterized by hypothesizing largely unconstrained by evidence But empirical data do exist and the purpose of this book is to integrate and review the available evidence from all relevant disciplines not only linguistics but also e g neurology primatology paleoanthropology and evolutionary biology The evidence is then used to constrain the multitude of scenarios for language origins demonstrating that many popular hypotheses are untenable Among the issues covered 1 Human evolutionary history 2 Anatomical prerequisites for language 3 Animal communication and ape language 4 Mind and language 5 The role of gesture 6 Innateness 7 Selective advantage of language 8 Proto language *Psycholinguistics* Michael Garman, 1990-09-28 An introduction to psycholinguistics the study of human language processing which deals with the central area of the linguistically mature monolingual adult s language abilities The Encyclopædia Britannica, 1898 **Linguistic Evidence** William M. O'Barr, 2014-05-19 With the permission of a North Carolina court more than 150 hours of courtroom speech were recorded for this study These tapes provided a rich archive for a variety of different types of inquiry including the ethnography of courtroom speech and social psychological experiments focused on effects of different modes of presenting information in courts of law Four sets of linguistic variables and related experimental studies have constituted a major portion of the research 1 powerful versus powerless speech 2 hypercorrect versus formal speech 3 narrative versus fragmented testimony and 4 simultaneous speech by witnesses and lawyers All four sets of studies focus on the central question of importance of form over content of testimony **The Federal Reporter**, 1896 **The Irish Reports**, 1929

A History of Greece: From the earliest times to the Ionian revolt Evelyn Abbott, 1888 **The Making of Language** Mike Beaken, 1996 An introduction to the evolution of language from gestural communication to the development of complex syntax Beaken synthesizes advances in scientific knowledge based on archaeological and fossil evidence primate study and new techniques in historical language analysis and re examines language origins from the point of view of a linguist Countering Pinker s *The Language Instinct* Beaken refutes claims for an innate biological capacity for language and demonstrates that both the origin and form of language can be explained in terms of human activity He shows how human beings made their own language in the process of collective labour and the social interactions and relations which surround the immediate tasks for the survival of human groups **Reports of Cases Argued and Determined in the Supreme Judicial Court of the Commonwealth of Massachusetts** Massachusetts. Supreme Judicial Court, 1909
