Teachers clinicians and administrators are being asked more frequently than ever before to respond to students with an increasingly complex set of needs and behaviors Lesson Plan a la Carte guides educators through a simple step by step process of creating an integrated lesson plan that addresses the social environmental and communication challenges that block kids access to academics and other learning opportunities This model helps to integrate the best clinical and educational practices into a plan that speaks a common language and aligns and focuses priorities goals and strategies

Building resilience & supporting mental health in bereaved youth through sports Theo Gavrielides, This ebook presents the results of the Footsteps Forward project carried out by the RJ4All International Institute with support from the London Violence Reduction Unit of the Mayor of London It was carried out in 2024 in South East London working directly with young people aged 14 18 who were affected by loss and serious youth violence It used the RJiNEAR resilience model drawn from restorative justice and positive psychology principles It aimed to test a hypothesis whereby the delivery of

combined group multi sports and therapeutic activities guided by the RjiNEAR ethos will lead to improved well being and resilience outcomes for young people affected by serious youth violence and loss The project bridges an important caveat in the extant literature focusing on structured support for these youth Among the findings the project illustrated that it created a safe space for grief expressions and sports engagement Additionally a moderate correlation was observed between RjiNEAR and the support received for grief To cite this ebook Gavrielides T 2024 Building resilience supporting mental health in bereaved youth through sports Findings from the Footsteps Forward project A restorative justice RjiNEAR approach London RJ4All Publications ISBN 978 1 80463 062 4 DOI 10 13140 RG 2 2 15572 72322
