

Health checks

Every guinea pig is different, and it's good to get to know how. Once you're familiar with your pets' normal habits and behaviour, it will be easier to spot when they're ill.

You can help to maintain your pets' good health by learning to do some simple health checks every week. It's a good way to increase the bond between you, and these quick and easy checks are best done when your guinea pig is feeling comfortable and relaxed – you might find that an Excel Nature Snack helps.

And never forget: if in doubt, always consult your vet immediately.

Ears

Gently look inside and make sure they're clean and free from mites and fleas.

Eyes

Make sure their eyes are clear and shiny. Dull, swollen eyes are often a sign of illness and can lead to blindness.

Teeth

Check to make sure there isn't any excessive drooling which can be a sign of dental problems. Be careful with this health check: your pet might not be comfortable with having their mouth inspected and may bite.

Fur

Gently feel and look to check that there are no bald patches, no signs of mites or fleas and no injuries.

Feet

Gently hold and feel the feet to make sure your pet hasn't injured themselves. Check their claws too – they need to be clipped to keep them at a safe length; your vet can do this for you or show you how to.

Weight

Weigh your pet on a regular basis to see that they are maintaining a constant weight that is healthy for their age. Regular visits to your vet will tell you what their weight should be. Watching the scales is important – obesity is a serious illness that can lead to other health problems.
