Engaging Students with Music Education Pete Dale, 2017-03-27 Engaging Students with Music Education is a groundbreaking book about using DJ decks and urban music in mainstream schools to re-engage disaffected learners and develop a curriculum which better reflects overall contemporary tastes Many young learners are at risk of exclusion this book argues that for such individuals the implications of such a shift in the music curriculum could be especially positive Drawing extensively on the author's own wealth of teaching experience and bridging the gap between practice and theory this book demonstrates through case studies that DJ decks can prove extremely valuable in mainstream classroom situations across the secondary school age ranges Addressing challenging and crucial topics combining rigorous theoretical analysis

with practical suggestions the book addresses questions such as Are DJ decks actually a musical instrument and are they suitable for classroom teaching Will Ofsted s school inspectors approve of music teaching involving DJ decks and urban music If we bring urban music into the classroom will this further marginalise classical music Are Djing and MCing skills recognised within examination specifications at least in the UK Current teachers will find the practical advice on how to incorporate DJ decks and urban music into their classroom especially helpful whilst educational researchers will be captivated by the critical discussion of the child centred tradition and a theoretical approach which stretches from continental philosophy to practice based reflection With an insistence that the starting point for music education should always be the interests and experiences of the learners this book is essential reading for those music teachers and researchers interested in the benefits of non standard music making in the classroom

Remix and Life Hack in Hip Hop Michael B. MacDonald, 2016-07-15 Many hiphoppas labour to sustain Hiphop Kulture in their communities far from the big stages world tours and hit singles enjoyed by a shockingly few American hiphoppas The creative labour of these few mega stars is calculated in billions of dollars But for most hiphoppas their creative labour may never get expressed in economic terms Instead it is expressed in social capital the production of collective and individual subjectivities the bonds of love that build and hold communities together and the healing of broken hearts broken homes and broken neighborhoods in broken cities Hiphop Kulture is NOT a music genre it is MUCH more and exploring how the sharing of aesthetic resources builds community and how situated learning plays a necessary role in cultural sustainability draws out questions that may lead to a model of community located cultural education and a starting point for a critical pedagogy of music I ain t going to front academics talking about hiphop scares me and often pisses me off I m protective about this culture like it s my own baby because it s meant so much to me and my close friends In my less angry moments I do appreciate the fact that this culture still has so much to give to the rest of the world and that the next level is what we give back Well we need allies in this complex world to move things forward As I ve gotten to know Michael I consider him such an Ally and that his intent is firmly squared in empowering cats in the front lines I also really dig the fact that he is committed to helping document the histories of those who laid the groundwork in the Edmonton scene This is the respectful place to start I look forward to bearing witness to Grass roots Hiphop reclaiming its voice and being at the forefront with academics supporting their community efforts Stephen Buddha Leafloor Founder of the Canadian Floor Masters Founder of Blueprintforlife.ca Ashoka Fellow Social Worker and an aging bboy Dr Michael B MacDonald s research into Hip Hop s pedagogical ingenuity have not only led us to the grassroots of Hip Hop s rich and vibrant global culture but to the very Ethos of Hiphop With bold examination this exciting research stands at the forefront of contemporary post colonial Hiphop literature Andre Hamilton aka Dre Pharoh Executive Director Cipher5 Hiphop Academy Temple of HipHop Canada *Hip Hop Street Curriculum* Jawanza Kunjufu, 2005 Refuting the myths that black youth are unable to excel at academics and are limited to careers in professional sports rap music or drug dealing this motivational book aims to engage teens by bridging the gap between school and hip hop culture Topics such as the ability for many youths to memorize rap lyrics verbatim and how those skills can translate into academia are discussed along with more general issues including peer pressure media sexuality career development and gang activity Written in an adolescent friendly style this much needed book for educators seeks a different way of approaching students *You Mean, There's Genius in My Hip Hop?* F. W. Gooding, 2013 *Slam*

School Bronwen Low, 2011-03-22 Mainstream rap's seductive blend of sexuality violence and bravado hardly seems the stuff of school curricula And chances are good that the progressive and revolutionary underground hip hop of artists such as The Roots or Mos Def is not on the playlists of most high school students That said hip hop culture remains a profound influence on contemporary urban youth culture and a growing number of teachers are developing strategies for integrating it into their classrooms While most of these are hip hop generation members who cannot imagine leaving the culture at the door this book tells the story of a white teacher who stepped outside his comfort zone into the rich and messy realm of student popular investments and abilities Slam School takes the reader into the heart of a poetry course in an urban high school to make the case for critical hip hop pedagogies Pairing rap music with its less controversial cousins spoken word and slam poetry this course honored and extended student interests It also confronted the barriers of race class gender and generation that can separate white teachers from classrooms of predominantly black and Latino students and students from each other Bronwen Low builds a surprising argument the very reasons teachers might resist the introduction of hip hop into the planned curriculum are what make hip hop so pedagogically vital Class discussions on topics such as what one can and cannot say in the school auditorium or who can use the N word raised pressing and difficult questions about language culture and identity As she reveals an innovative student centered pedagogy based on spoken word curriculum that is willing to tolerate conflict as well as ambivalence has the potential to air tensions and lead to new insights and understandings for both teachers and students
