

The background is an abstract composition of warm, textured colors. On the left, there's a vertical band of deep orange and red. To the right, a larger area of yellow and gold is visible. In the center-right, there's a green, brush-stroke-like shape that resembles a bird in flight. The overall texture is painterly and layered.

Sounds of the Borderland Catherine Baker, 2016-04-01 *Sounds of the Borderland* is the first book length study of how popular music became a medium for political communication and contested identification during and after Croatia's war of independence from Yugoslavia It extends existing cultural studies literature on music politics and the state which has largely been grounded in Western European and North American political systems It also responds to an emerging fascination with the culture and politics of contemporary south east Europe expanding scholarship on the post Yugoslav conflicts by going on to encompass significant social and political changes into the present day The outbreak of war in 1991 saw almost every professional musician in Croatia take part in a wave of patriotic music making and the powerful state television system strive to bring popular music under its control As the

political imperative shifted from securing national survival to consolidating a homogenous nation state the music industry responded with several strategies for creating a national popular music producing messages about the nation and in the ongoing debates over the origins of the folk music that inspired many songs a way to define the nation by expressing what Croatia was not The war on ethnic ambiguity which cut through individuals social and creative lives played out across the airwaves sales racks and gossip columns of a small country that imagined itself a historical and cultural borderland These explicit and implicit narratives of nationhood connect many political phases the months of fiercest fighting the stabilised front the uneasy post war years when the symbolic frontline region of eastern Slavonia had still not returned to Croatian sovereignty the euphoria and instability after the end of the Tudjman regime in 2000 and Croatia's fraught journey towards the European Union Baker's book provides valuable insight into the role of music in a wartime and post conflict society and will be essential reading for researchers and students interested in south east Europe or the transformation of entertainment during and after conflict

Dreaming Souls Owen Flanagan, 2001-05-17 What if anything do dreams tell us about ourselves What is the relationship between types of sleep and types of dreams Does dreaming serve any purpose Or are dreams simply meaningless mental noise unmusical fingers wandering over the piano keys With expertise in philosophy psychology and neuroscience Owen Flanagan is uniquely qualified to answer these questions And in *Dreaming Souls* he provides both an accessible survey of the latest research on sleep and dreams and a compelling new theory about the nature and function of dreaming Flanagan argues that while sleep has a clear biological function and adaptive value dreams are merely side effects free riders irrelevant from an evolutionary point of view But dreams are hardly unimportant Indeed Flanagan argues that dreams are self expressive the result of our need to find or to create meaning even when we're sleeping Rejecting Freud's theory of manifest and latent content of repressed wishes appearing in disguised form Flanagan shows how brainstem activity during sleep generates a jumbled profusion of memories images thoughts emotions and desires which the cerebral cortex then attempts to shape into a more or less coherent story Such dream narratives range from the relatively mundane worries of non REM sleep to the fantastic confabulations of deep REM that resemble psychotic episodes in their strangeness But however bizarre these narratives may be they can shed light on our mental life our well being and our sense of self Written with clarity lively wit and remarkable insight *Dreaming Souls* offers a fascinating new way of apprehending one of the oldest mysteries of mental life

The Romantic Dream Douglas B. Wilson, 1993-01-01 Although criticism on the medieval and Renaissance dream abounds a strange lacuna exists in the critical literature of dream in the English Romantics Every major Romantic poet relied frequently and explicitly on dream imagery and Romantic poems conduct a long discussion about the meaning power value and provenance of dreams Douglas B Wilson's book traces the wide web of connections that the Romantics wove between dreams and other expressions of consciousness sensation emotions illusions creativity personality and memory Situating his study of the Wordsworthian dream between ancient interpretation and Freudian

interpretation Wilson gains a new perspective on the oneiric moment of Romanticism while liberating it from a narrowly psychoanalytic reading Wordsworth embodies virtually all of the dream theory of his time thus making him the perfect object of Wilson's multiple approaches to dream activity as poetic creation Back cover *Memory and Memorials, 1789-1914* Matthew Campbell, Jaqueline M. Labbe, Sally Shuttleworth, 2002-11 This volume explores the cultural importance of concepts and theories of memory Ranging historically from the French Revolution to the beginnings of Modernism it examines the importance of memory in cultural history **Identities in Motion** Peter X Feng, 2002-08-14 Considers questions of Asian American Identity and issues of homeland and home in Asian American film The Dreaming Mind Melanie G. Rosen, 2024-02-27 The Dreaming Mind provides an insightful interdisciplinary approach to the study of dreaming exploring its nature and examining some of the implications of dream states for theories of consciousness cognition and the self Drawing on research from philosophy cognitive science and psychology the book reveals new insights into the sleeping and waking mind It considers philosophical thinking such as extended mind theory theories of consciousness and theories of the self applying these to empirical dream research The book embraces a pluralistic account of dreaming showing how dream experiences can be highly varied in content and cognition and discusses the implications of dreaming for a variety of influential consciousness theories including higher order thought theory global workspace theory and the phenomenal access distinction Alongside imaginative and hallucinatory dreaming the book also discusses vicarious dreaming and its implications for philosophy of the self Offering an integrative approach into our understanding of dreams and the mind this book is essential reading for students and researchers of consciousness dreams philosophy and cognitive sciences as well as anyone who is curious about dreaming The Palgrave Handbook of Music and Sound in Peak TV Janet K. Halfyard, Nicholas Reyland, 2024-12-17 The Palgrave Handbook to Music and Sound in Peak TV charts the transformation of television's sonic storytelling during the new golden age of televisual narrative from the late 1990s to the early 2020s Grounded in close analytical critical and theoretical work identifying the key traits of music and sound in this peak TV period the book casts its critical net wider to develop interpretations of significance not just for screen music studies and musicology but for screen and media studies too By theorizing peakness with respect to sound and music and by drawing together contributions from a diverse collection of prominent musicologists media scholars and practitioners this handbook provides the authoritative guide to the role music has played in creating the success of some of the most culturally and commercially significant popular art of the early twenty first century The volume contains 25 essays in three main sections Concepts and Aesthetics Practices and Production and Audiences and Interpretations Topics discussed include peakness complexity ostentatious scoring antiheroes memory franchises worldbuilding nostalgia maternity trauma actor's voices title sequences library music branding queer camp scoring kids TV captioning industry practices HBO and sound design Shows examined include The Sopranos The Wire Game of Thrones Battlestar Galactica Westworld Buffy the Vampire Slayer Stranger Things The Bridge Dexter Killing

Invalidism and Identity in Nineteenth-Century Britain Maria H. Frawley, 2010-11-15 Nineteenth century Britain did not invent chronic illness but its social climate allowed hundreds of men and women from intellectuals to factory workers to assume the identity of invalid Whether they suffered from a temporary condition or an incurable disease many wrote about their experiences leaving behind an astonishingly rich and varied record of disability in Victorian Britain Using an array of primary sources Maria Frawley here constructs a cultural history of invalidism She describes the ways that Evangelicalism industrialization and changing patterns of doctor patient relationships all converged to allow a culture of invalidism to flourish and explores what it meant for a person to be designated or to deem oneself an invalid Highlighting how different types of invalids developed distinct rhetorical strategies her absorbing account reveals that contrary to popular belief many of the period's most prominent and prolific invalids were men while many women found invalidism an unexpected opportunity for authority In uncovering the wide range of cultural and social responses to notions of incapacity Frawley sheds light on our own historical moment similarly fraught with equally complicated attitudes toward mental and physical disorder

Fragmentation in Sleep and Mind: Linking Dissociative Symptoms, Sleep, and Memory Sue Llewellyn, Dalena van Heugten - van der Kloet, 2018-03-27 Fragmented dissociated consciousness can characterize the mind in both wake and sleep states Dissociative symptoms during sleep include vivid dreaming nightmares and alterations in objective sleep parameters e g lengthening of REM sleep During waking hours dissociative symptoms exhibit disparate characteristics encompassing memory problems excessive daydreaming absentmindedness and impairments and discontinuities in perceptions of the self identity and the environment Llewellyn has theorized that a progressive and enduring de differentiation of wake and dream states of consciousness eventually results in schizophrenia a lesser degree of de differentiation may have implications for dissociative symptoms Against a background of de differentiation between the dream and wake states the papers in this volume link consciousness memory and mental illness with a special interest for dissociative symptoms

Urban Walking -The Flâneur as an Icon of Metropolitan Culture in Literature and Film Isabel Vila-Cabanes, 2020 The volume assembles fresh treatments on the flâneur in literature film and culture from a variety of angles Its individual contributions cover established as well as previously unnoticed textual and filmic source materials in a historical perspective ranging from the late nineteenth to the early twenty first century The range of topics covered demonstrates the ongoing productivity of flânerie as a viable paradigm for the artistic approach to urban culture and the continuing suitability of flânerie as an analytic category for the scholarly examination of urban representation in the arts This productiveness also extends to the questioning re evaluation and enhancement of flânerie's theoretical foundations as they were laid down by Walter Benjamin and others The work will be particularly relevant for students and scholars of literary studies film studies and gender studies as well as for theoretical approaches to flânerie as an important aspect of urban
