Economic Development and Entrepreneurship in Transition Economies Jovo Ateljević, Jelena Trivić, 2016-04-05 This book contributes to a better understanding of entrepreneurship in transition economies Current literature reflects the more traditional schools of thought on entrepreneurship which are influenced by the Western perspective and fail to fully address the scenario in transition economies There is a broad consensus among academics policy makers and practitioners that a fundamental cause of difficulties experienced by most economies in transition has been the fact that reform has not been accompanied by the creation of new private businesses and particularly SMEs This is especially evident in states created in Europe after the dissolution of the Soviet Union where many barriers which were inherited from the old system remain in place thus inhibiting entrepreneurial progress in these countries despite a favorable political and economic environment The contributions featured in this book focus on how much progress has been achieved so far with regard to these aspects as well as identify which current barriers and issues still need to be resolved Themes include innovation performance financing venture capital educational factors and entrepreneurial learning

Corporate and Unitary Legal Entities in Russia Florian Heindler, 2018-04-19 Derived from the renowned multi volume International Encyclopaedia of Laws this practical analysis of the law of business formations in Russia provides quick and easy guidance on a variety of corporate and partnership considerations such as mergers rights and duties of interested parties stock exchange rules labour laws and takeovers Lawyers who handle transnational business will appreciate the explanation of local variations in terminology and the distinctive concepts that determine practice and procedure A general introduction covering historical background definitions sources of law and the effect of international private law is followed by a discussion of such aspects as types of formation capital shares management control liquidation mergers takeovers holding companies subsidiaries and taxation Big companies various types of smaller entities and partnerships are all covered in turn These details are presented in such a way that readers who are unfamiliar with specific terms and concepts in varying contexts will fully grasp their meaning and significance Thorough yet practical this convenient volume puts the information necessary for corporations to compete effectively at the user s fingertips An important and practical tool for business executives and their legal counsel interested

in engaging in an international partnership or embarking on corporate expansion this book will prove a valuable time saving tool for business and legal professionals alike Lawyers representing parties with interests in Russia will welcome this very useful guide and academics and researchers will appreciate its value in the study of comparative business law **Private Law and Building Safety** Matthew Bell,Susan Bright,Ben McFarlane,Andrew Robertson,2025-07-24 This collection of essays explores the real world problem of building safety through the lens of private law High profile building failures including the fire at Grenfell Tower London England and the collapse of Champlain Towers South Florida USA have exposed widespread building safety failures globally In this book international experts deploy a variety of different private law perspectives ranging through torts contract and real property law to examine building safety failures across the UK USA Australia Singapore New Zealand Italy and Canada The book offers policymakers practitioners and scholars ground breaking consideration of this vital yet under considered aspect of the building safety crisis along with new and valuable insights into the nature limits and utility of private law The book shows that private law can be part of the solution to as well as being part of the cause of the building safety crisis Consideration is given to existing legislative and judicial responses to the crisis offering guidance as to how statutory regimes addressing the building safety problem such as the Building Safety Act 2022 can best be understood and developed A central lesson is the need to take an integrated coherent approach within and beyond private law The book also illustrates that an understanding of the causes of and responses to the building safety crisis is vital to any theory of private law private law is unable to fulfil its distinctive and crucial role of ordering our relations one to another if we adopt an unduly limited view of the reasons and resources available to it The book results from a joint research project by the Faculty of Law at the University of Oxford and Melbourne Law School at the University of Melbourne

Think Tanks in Australia Trent Hagland,2023-03-22 This book provides the most comprehensive study of the Australian think tank industry to date Drawing on empirical evidence it first assesses the structure of the industry the methods think tanks use to persuade policymakers and public perceptions of their effectiveness The book then proceeds to examine three unique policy cases to analyse think tank influence on policymaking It argues that whilst think tanks play important roles in Australia s policy process their impacts vary depending on their approach and objectives The book also demonstrates that policymakers with contrasting ideological orientations diverge in their assessments of the utility and influence of think tanks It will appeal to students and scholars of public policy and practitioners in public administration and governance
