Teachers' classroom practices in addressing learners' errors in algebraic word problems Stephen Mubanga, 2021-10-08 Master's Thesis from the year 2020 in the subject Pedagogy School Pedagogics University of Zambia Postgraduate studies course Master of Mathematics Education language English abstract The study explored teachers' classroom practices in addressing learners' errors regarding how they engaged grade eight learners in reading how they probed learners' understanding and what they did to enhance learners' process skills and encoding abilities in algebraic word problems. Five teachers and twenty-five learners in five focus groups (discussions of five members each) at three secondary schools in Isoka district of Muchinga province, Zambia, were purposively sampled to participate in the study. The study used a qualitative approach which followed a descriptive case study design. Data collection was done using lesson observations, semi-structured interviews, document analysis, and focus group discussions. To capture observations and interviews in totality, video and audio recordings were used respectively. Thematic analysis was used to analyse data. The five performance strategies of solving word problems by Newman, namely reading ability, comprehension ability, transformation ability, process skills, and encoding ability, guided the analysis of data. The study was guided by the following research questions: How do teachers engage learners in reading algebraic word problems? How do teachers probe learners' understanding of algebraic word problems? What do teachers do to enhance learners' process skills and encoding abilities in algebraic word problems? **PISA Making Education Count for Development Data Collection and Availability in Six PISA for Development Countries** UNESCO Institute for Statistics, 2016-09-28 This report provides a systematic review of the collection, availability, and quality of metadata as well as data regarding education at the system level for countries participating in the PISA for Development PISA D project: Cambodia, Ecuador, Guatemala, Paraguay, Senegal, and Zambia. **Encyclopedia of Food Allergy**, 2024-06-21 Encyclopedia of Food Allergy organized in 10 sections with 200 chapters and written by world-renowned clinician-scientist authors is the most comprehensive resource for food allergy ever compiled.
