Green Card Fraud - The Ugly Truth About Immigration Fraud In America John Garbinski, 2020-02-13 Each year millions of people come to the United States on temporary visas but refuse to leave without consequence Individuals who refuse to leave at the time their visa expires should be subject to criminal penalties The 9 11 Report concluded that a visa tracking system was essential This is required by law but implementation has been blocked by Congress Nearly every other country in the world has both entry and exit control Visitors to these countries must process both in and out of the country But the United States has ONLY entry control and NO exit control This has made the task of determining if a visitor has departed the United States or has remained much more difficult During the fourteen years that I was employed by the United States Government I experienced first hand the lengths that some individuals would go to obtain a Green Card and or Citizenship in the United States The cases outlined in this book are real cases Starting Over in the U. S. After Getting Your Green Card Elzbieta (Elizabeth) Baumgartner, 2009-02 Helps immigrants establish themselves in the U S after legalizing their immigration status The book describes how to lay foundations for success by cleaning up problems caused by having stayed in the U S with a lapsed visa by unauthorized employment lacking American credit and employment history falling victim of fraud or being arrested Page 4 of cover *Your Complete Guide to Green Card Lottery (diversity Visa)* Michael Faro, 2011-07 Every year more than 100 000 applicants are selected and receive United States Permanent Residency through the Lottery system While there are numerous other books that describe various methods of obtaining green cards or general ways of obtaining one no other book in the market currently covers this subject with as much detail **Immigration Benefits** Richard M. Subcommittee on Homeland Security,2010 **Preventing Identity Crime: Identity Theft and Identity Fraud** Syed R. Ahmed,2020-04-14 Identity crime which encompasses both identity theft and identity fraud is one of the fastest growing crimes around the world yet it lacks its own identity there is no universally accepted definition little understanding of what the crime is or should be and no legal framework placing the crime into a coherent and effective grouping of criminal sanctions In this book Dr Syed Ahmed addresses and proposes solutions for resolving these issues and tackles head on the various facets of what is needed to deal with Identity Crime A comprehensive and an exhaustive study of different types of Identity Crime is conducted and practical recommendations for preventing and minimizing the impact of identity crime is presented for all to consider **Earned Citizenship** Michael J. Sullivan,2019-03-19 The migration and settlement of 11 million unauthorized immigrants is among the leading political challenges facing the United States today The majority of unauthorized immigrants in the U S have been here for more than five years and are settling into American

communities working forming families and serving in the military even though they may be detained and deported if they are discovered An open question remains as to what to do about unauthorized immigrants who are already living in the United States On one hand it is important that the government sends a message that future violations of immigration law will not be tolerated On the other sits a deeper ethical dilemma that is the focus of this book what do the state and citizens owe to unauthorized immigrants who have served their adopted country Earned Citizenship argues that long term unauthorized immigrant residents should be able to earn legalization and a pathway to citizenship through service in their adopted communities Their service would act as restitution for immigration law violations Military service in particular would merit naturalization in countries with a strong citizen soldier tradition including the United States The book also considers the civic value of caregiving as a service to citizens and the country contending that family immigration policies should be expanded to recognize the importance of caregiving duties for dependents This argument is part of a broader project in political theory and public policy aimed at reconciling civic republicanism with a feminist ethic of care and its emphasis on dependency work As a whole Earned Citizenship provides a non humanitarian justification for legalizing unauthorized immigrants based on their contributions to citizens and institutions in their adopted nation

The New Case Against Immigration Mark Krikorian, 2008 Expert Mark Krikorian has studied the trends and concluded that America must permanently and dramatically reduce immigration both legal and illegal or face enormous problems in the near future His argument is based on facts not fear or prejudice Before the upheavals of the 1960s the United States expected immigrants from around the world to earn a living learn English and become patriotic Americans But since the rise of identity politics political correctness and Great Society programs we no longer make these demands Even the positive changes of the last few decades such as the Internet and cheap international phone service hinder the assimilation of immigrants by making it easier for them to lead transnational lives Krikorian proves that although mass immigration once served our national interests in today's America it threatens to destroy our common national identity limit opportunities for upward mobility strain resources for social programs and disrupt middle class norms of behavior Jacket
