Customers that Count Tony Cram, 2001 A wonderfully fresh look at CRM Customers that Count starts with the theses that the nature of human relationship provides a model for creating business loyalty then reviews important rules of friendship that will help you to build customer relationships Filled with lots of valuable case histories this is an idea a minute read Frederick Newell author of The New Rules of Marketing Securing repeat business from good customers through long term loyal relationships is the key to generating profit However there are two key elements to this that most people ignore or misunderstand First the notion of good customers That means you have to concentrate on customers that count the ones who deliver profits Equally importantly it means that you should learn to sack bad customers the others who are destroying value Second the notion of loyal relationships A loyal relationship is one that lives and goes beyond the database If you want these customers loyalty you have to treat them like valued human beings not just numbers This book is more than just another book on CRM It

goes beyond the concept of capturing customers into captivating them. In a world where consumer choice has never been greater and where the cost of acquiring new customers is sometimes more than the value they bring in, you can't afford to treat all customers the same. The British high street was full of made to measure tailors and traditional grocers. Among the household names were Mac Fisheries, Dewhurst, John Collier and Timothy Whites Tailors. In this enjoyable new book, Timpson shows how successive generations of forward thinking shopkeepers and inspirational entrepreneurs have led the major retailers through a period of rapid change. People such as Ken Morrison, Ralph Halpern, Terence Conran and Anita Roddick, without whom our high streets would have looked very different.
