Medical humanities [electronic journal]. , 2000

Medical Humanities Deborah Kirklin, Ruth Richardson, 2001 This book examines the impetus to incorporate the arts into the science of medicine

The Medical/Health Humanities-Politics, Programs, and Pedagogies Therese Jones, Kathleen Pachucki, 2022-10-26 This book covers a brief history of the Health Humanities Consortium and contains a toolkit for those academic leaders determined to launch inter and multi disciplinary health humanities programs in their own colleges and universities It offers remarkable discussions and descriptions of pedagogical practices from undergraduate programs through medical education and resident training philosophical and political analyses of structural injustices and clinical biases and insightful and informative analyses of imaginative work such as comics literary texts and paintings Previously published in Journal of Medical Humanities Volume 42 issue 4 December 2021 Chapters Reflective Writing about Near Peer Blogs A Novel Method for Introducing the Medical Humanities in Premedical Education Medical Students Creation of Original Poetry Comics and Masks to Explore Professional Identity Formation Reconsidering Empathy An Interpersonal Approach and Participatory Arts in the Medical Humanities and The Health Benefits of Autobiographical Writing An Interdisciplinary Perspective are available open access under a Creative Commons Attribution 4.0 International License via link [springer.com](https://www.springer.com)

Edinburgh Companion to the Critical Medical Humanities Anne Whitehead, 2016-06-14 In this landmark Companion expert contributors from around the world map out the field of the critical medical humanities This is the first volume to introduce comprehensively the ways in which interdisciplinary thinking across the humanities and social sciences might contribute to critique and develop medical understanding of the human individually and collectively The thirty six newly commissioned chapters range widely within and across disciplinary fields always alert to the intersections between medicine as broadly defined and critical thinking Each chapter offers suggestions for further reading on the issues raised and each section concludes with an Afterword written by a leading critic outlining future possibilities for cutting edge work in this area Topics covered in this volume include the affective body biomedicine blindness breath disability early modern medical practice fatness the genome language madness narrative race systems biology performance the postcolonial public health touch twins voice and wonder Together the chapters generate a body of new knowledge and make a decisive intervention into how health medicine and clinical care might address questions of individual subjective and embodied experience

Teaching Health Humanities Olivia Banner, Nathan Carlin, Thomas R. Cole, 2019-01-23 Teaching Health Humanities expands our understanding of the burgeoning field of health humanities and of what it aspires to be The volume's contributors describe their different degree programs the politics and perspectives that

inform their teaching and methods for incorporating newer digital and multimodal technologies into teaching practices Each chapter lays out theories that guide contributors pedagogy describes its application to syllabus design and includes at the finer level examples of lesson plans class exercises and or textual analyses Contributions also focus on pedagogies that integrate critical race feminist queer disability class and age studies in courses with most essays exemplifying intersectional approaches to these axes of difference and oppression The culminating section includes chapters on teaching with digital technology as well as descriptions of courses that bridge bioethics and music medical humanities and podcasts health humanities filmmaking and visual arts in end of life care By collecting scholars from a wide array of disciplinary specialties professional ranks and institutional affiliations the volume offers a snapshot of the diverse ways medical health humanities is practiced today and maps the diverse institutional locations where it is called upon to do work It provides educators across diverse terrains myriad insights that will energize their teaching

Medical Humanities and Medical Education Alan Bleakley, 2015-03-02 The field of the medical humanities is developing rapidly however there has also been parallel concern from sceptics that the value of medical humanities educational interventions should be open to scrutiny and evidence Just what is the impact of medical humanities provision upon the education of medical students In an era of limited resources is such provision worth the investment This innovative text addresses these pressing questions describes the contemporary territory comprising the medical humanities in medical education and explains how this field may be developed as a key medical education component for the future Bleakley a driving force of the international movement to establish the medical humanities as a core and integrated provision in the medical curriculum proposes a model that requires collaboration between patients artists humanities scholars doctors and other health professionals in developing medical students sensibility clinical acumen based on close noticing and sensitivity ethical professional and humane practice In particular this text focuses upon how medical humanities input into the curriculum can help to shape the identities of medical students as future doctors who are humane caring expressive and creative whose work will be technically sound but considerably enhanced by their abilities to communicate well with patients and colleagues to empathise to be adaptive and innovative and to act as medical citizens in shaping a future medical culture as a model democracy where social justice is a key aspect of medicine Making sense of the new wave of medical humanities in medical education scholarship that calls for a critical medical humanities Medical Humanities and Medical Education incorporates a range of case studies and illustrative and practical examples to aid integrating medical humanities into the medical curriculum It will be important reading for medical educators and others working with the medical education community and all those interested in the medical humanities
