A Poor Season for Whales Michiel Heyns, 2020-03-20 A Poor Season for Whales is pitch perfect a clever biting funny novel It had me riveted Finuala Dowling author of Okay Okay Okay Margaret Crowley handsome clever and rich with a comfortable home and happy disposition seemed to unite some of the best blessings of existence and had lived nearly fifty six years in the world with very little to distress or vex her It was therefore hardly to be foreseen that in her fifty sixth year she would kill a man with a kitchen knife When after twenty six years of marriage Margaret Crowley s husband leaves her for a younger man she has to rethink her priorities and consider her options as a free agent with no appurtenances how best to turn that freedom into a meaningful future rather than a mulling over the past Opting to leave behind her support system of family and friends she moves to a seaside town with her dog Benjy intent upon a simple uncluttered existence But simplicity it seems can be a complicated affair When the charismatic young Jimmy Prinsloo Mazibuko enters her life and her home apparently intent upon establishing himself as a general purpose handyman and cook she finds herself torn between distrust and attraction Is he merely the helpful cheerful young man he seems or is there a darker purpose to his assistance As in his award winning Lost Ground Heyns situates his novel in contemporary South Africa with a lively cast of characters Margaret s forthright best friend Frieda her loose limbed son Carl her exasperated daughter Celia and most insistently of all her opinionated domestic Rebecca Friends and family it seems are not to be left behind at will And new acquaintances may not be what they seem

[MotorBoating](#), 2008-01 [MotorBoating](#), 2008-01 [The Evolution of European Manufacturing Industries](#) Bolesław Domański, Grzegorz Micek, Robert Guzik, Krzysztof Gwosdz, Arkadiusz Kocaj, 2024-08-29 The book provides a picture of the increasing significance of Central Europe and especially Poland in global production networks discussing the underlying economic social and political factors The key question it answers is to what extent the

growth of production and exports results in industrial upgrading towards the manufacturing of more sophisticated high value added products new technologies and the development of non production functions especially design and advanced service capabilities The book shows that Central European manufacturing no longer exhibits the typical features of production activities in the periphery in particular low density and diversity low productivity narrow specialisation in low value added activities and poor local linkages hence limited local value creation and value capture There is still dependence on foreign controlled enterprises in several sectors and limited product innovation which remains a major weakness Further the book assesses the social consequences of the ongoing development of manufacturing capabilities in Poland and its impact on employment conditions including the quality of jobs and level of wages The authors provide insight into relationships between globalisation processes place specific attributes and current economic policies and as such the book will be of interest to academics policy makers and other stakeholders interested in both peripheral economies and core countries and representing various international organisations dealing with economic transition and development
