Recording Science in the Digital Era Cerys Willoughby, 2019-07-15

For most of the history of scientific endeavour science has been recorded on paper In this digital era however there is increasing pressure to abandon paper in favour of digital tools Despite the benefits there are barriers to the adoption of such tools not least their usability As the relentless development of technology changes the way we work we need to ensure that the design of technology not only overcomes these barriers but facilitates us as scientists and supports better practice within science This book examines the importance of record keeping in science current record keeping practices and the role of technology for enabling the effective capture reuse sharing and preservation of scientific data Covering the essential areas of electronic laboratory notebooks ELNs and digital tools for recording scientific data including an overview of the current data management technology available and the benefits and pitfalls of using these technologies this book is a useful tool for those interested in implementing digital data solutions within their research groups or departments This book also provides insight into important factors to consider in the design of digital tools such as ELNs for those interested in producing their own tools Finally it looks at the role of current technology and then considers how that technology might develop in the future to better

support scientists in their work and in capturing and sharing the scientific record
