Goldish,R.H.

Popkin,2013-03-09 The earliest scientific studies of Jewish messianism were conducted by the scholars of the Wissenschaft des Judentums school particularly Heinrich Graetz the first great Jewish historian of the Jews since Josephus These researches were invaluable because they utilized primary sources in print and manuscript which had been previously unknown or used only in polemics The Wissenschaft studies themselves however prove to be polemics as well on closer inspection Among the goals of this group was to demonstrate that Judaism is a rational and logical faith whose legitimacy and historical progress deserve recognition by the nations of Europe Mystical and messianic beliefs which might undermine this image were presented as aberrations or the result of corrosive foreign influences on the Jews Gershom Scholem took upon himself the task of returning mysticism and messianism to their rightful central place in the panorama of Jewish thought Jewish messianism was for Scholem a central theme in the philosophy and life of the Jews throughout their history shaped anew by each generation to fit its specific hopes and needs Scholem emphasized that this phenomenon was essentially independent of messianic or millenarian trends among other peoples For example in discussing messianism in the early modern era Scholem describes a trunk of influence on the Jewish psyche set off by the expulsion from Spain in 1492

*Society and Sentiment* Mark Salber Phillips,2000-05-01 A deepening interest in both social and interior experience was a distinguishing feature of the cultural life of eighteenth century Britain influencing writers in all genres from fiction to philosophy Focusing on this interplay of ideas and genres Mark Phillips explores the ways in which writers and readers of history memoir biography and related literatures responded to the social and sentimental concerns of a modern commercial society He shows that the writing of history which once concentrated exclusively on political events widened its horizons in ways that often paralleled better known developments in the contemporary novel Ultimately Phillips proposes a new model for the study of historiographical narrative Countering tropological readings identified with Hayden White he offers a more historically nuanced approach that stresses questions of genre and reception as a guide to understanding how narratives were reshaped by new audiences and new social needs Drawing inspiration from both the social analysis of the Scottish

Enlightenment and the sentimental aesthetics of the contemporary novel historical writing began to explore the areas of social experience and private life for which there was no place in classical historiography The consequence Phillips argues was a significant reframing of historical thought that expressed itself through new themes including the histories of commerce manners literature and women and through some lively experiments in narrative form This book offers a rich picture of historiography that will interest students of history and fiction alike **National Library of Medicine Current Catalog** National Library of Medicine (U.S.),1971 **Hiob Ludolf and Johann Michael Wansleben** ,2023-12-11 Hiob Ludolf 1624 1704 and Johann Michael Wansleben 1635 1679 the master and his erstwhile student could not be more different Ludolf was a celebrated member of the Republic of Letters and the towering authority on Ethiopian studies Wansleben himself a brilliant scholar and unlike Ludolf a seasoned traveller in the Middle East converted to Catholicism and eventually died impoverished and marginalized Both stood at the centre of the burgeoning study of Ethiopia and spent a formative part of their career in middle sized Duchy of Saxe Gotha which for several years played a pivotal role in Ethiopian European encounters This volume offers in depth studies of the remarkable life and work of these two scholars in a broader intellectual political and confessional context Current Catalog National Library of Medicine (U.S.),1983 First multi year cumulation covers six years 1965 70 **Supervisory Control of Discrete Event Systems Using Petri Nets** John O.
