

General Coding Guidelines

1. The ICD-10-CM code manual is divided into three main sections: the Tabular List, the Alphabetic Index, and the Guidelines. The Tabular List contains the codes and their descriptions, while the Alphabetic Index provides a way to find the codes for a given condition or procedure. The Guidelines provide instructions on how to use the codes and how to handle specific coding situations.

2. The ICD-10-CM code manual is organized by body system. The first section covers the General Guidelines, followed by the codes for the various body systems: External Causes of Injury, Poisoning, and Toxicology; Diseases of the Circulatory System; Diseases of the Respiratory System; Diseases of the Digestive System; Diseases of the Genitourinary System; Diseases of the Musculoskeletal System; Diseases of the Nervous System; Diseases of the Endocrine System; Diseases of the Immune System; Diseases of the Skin; Diseases of the Eye; Diseases of the Ear, Nose, and Throat; and Diseases of the Reproductive System.

3. The ICD-10-CM code manual is designed to be used in conjunction with the ICD-10-PCS code manual. The ICD-10-PCS code manual provides codes for the various procedures performed on a patient, while the ICD-10-CM code manual provides codes for the patient's condition. The two code manuals are used together to provide a complete picture of a patient's medical history and the care they received.
