**Psychological Managements for Psychosomatic Disorders** J.W. Paulley, H.E. Pelsler, 2012-12-06 It is a privilege to introduce this unusual book In a time when most docotrs practise medicine as a technical application of the natural sciences the authors both experienced clinicians combine the use of modem techniques with human understanding and psychological management of their patients in the practice of internal medicine Many of these patients suffer from psychosomatic disorders i e diseases in which

emotional stresses play a major role in the production of the symptoms and or signs But just because such a large proportion of all illnesses seen by physicians fall within this category whether functional or organic this book is not only a guide to the theory of psychosomatic medicine it describes the way in which the authors deal with patients in their daily practice Based on many years of clinical experience and a critical appraisal of the literature they have developed and tested an approach to what they describe as psychological management This is partly based on psychological and psychiatric principles but differs from specialised psychotherapy and can be learned and practised by physicians in combination with their technical medical treatment Extensive attention is paid to the stresses ambivalences and incompatibilities which the patients encounter in their communication with the key figures in their family and at work and to which they have unsuccessfully tried to adapt without having been able to solve the problems actively

Lopez, Sr.,2012-01-11 Fighter Pilot s Heaven presents the dramatic inside story of the American military s transition into the jet age as told by a flyer whose life depended on its success With colorful anecdotes about fellow pilots as well as precise technical information Donald S Lopez describes how it was to be behind the stick as a test pilot from 1945 to 1950 when the U S military was shifting from war to peacetime operations and from propeller to jet aircraft An ace pilot who had served with Gen Claire Chennault s Flying Tiger Fighter Group Lopez was assigned at the close of World War II to the elite Proof Test Group of the Air Proving Ground Command Located at Eglin Field later Eglin Air Force Base in Florida the group determined the operational suitability of Air Force weapons systems and aircraft and tested the first operational jet the P 80 Shooting Star Jet fighters required new techniques tactics and weaponry Lopez recounts historic test flights in the P 59 P 80 and P 84 among other planes describing complex combat maneuvers hair raising landings in unusual positions and disastrous crashes and near crashes This memoir is peppered with lively accounts of many pilots and their colleagues revealing how airmen coped with both exhilarating successes and sometimes tragic failures

**Beyond Human** Maryanne L. Leone,Shanna Lino,2023-10-02 Chronicling sixteenth century Spain to the present day Beyond Human aims to decentre the human and acknowledge the material historicity of more than human nature The book explores key questions relating to ecological equity justice and responsibility within and beyond Spain in the Anthropocene Examining relations between Iberian cultural practices historical developments and ecological processes Maryanne L Leone Shanna Lino and the contributors to this volume reveal the structures that uphold and dismantle the non human human dichotomy and nature culture divide The book critiques works from the Golden Age to the twenty first century in a wide range of genres including comedia royal treatises agricultural reports paintings satirical essays horror fiction and film young adult and speculative literature poetry graphic novels and television series The authors contend that Spanish cultural studies must expose the material historicity that entangles today s ecological crises and ecosocial injustices with previous future and contemporary entities The book argues that this will require the simultaneous decentring of the human and of the Anthropocene as an ecocritical framework By standardizing ecosocial

analysis and widening avenues for ecopedagogical approaches Beyond Human participates in the ecocentric transformation of Hispanic cultural studies

**Out of My Skull** James Danckert, John D. Eastwood, 2020-06-09 Usually when we're bored we try to distract ourselves. But soon enough boredom returns. James Danckert and John Eastwood argue that we can learn to handle boredom more effectively by recognizing what research shows boredom indicates: unmet psychological needs. Boredom therefore can motivate us to change what isn't working in our lives.

**Celebration Capitalism and the Olympic Games** Jules Boykoff, 2013-08-15 The Olympic Games have become the world's greatest media and marketing event: a global celebration of exceptional athletics gilded with corporate cash. Huge corporations vie for association with the Olympic Image in the hope of gaining a worldwide marketing audience of billions. In this provocative critical study of the contemporary Olympics, Jules Boykoff argues that the Games have become a massive planned economy designed to shield the rich from risk while providing them with a spectacle to treasure. Placing political economy at the center of the analysis and drawing on interdisciplinary research in sociology, politics, geography, history, and economics, Boykoff develops an innovative theory of celebration capitalism: the manipulation of state actors as partners that drives us towards public-private partnerships in which the public pays and the private profits. He argues that the Athens Games in 2004 marked the full emergence of celebration capitalism, with London 2012 representing its quintessential expression, characterized by a state of exception, unfettered commercialism, repression of dissent, questionable sustainability claims, and the complicity of the mainstream media. Controversial, challenging, and forthright, this book opens up a fascinating new avenue for understanding the contemporary Olympics in the context of global capitalist society. It is essential reading for anybody with an interest in the Olympic Games, the relationship between sport and society, or global politics and culture.

**Dog's Best Friend?** John Sorenson, Atsuko Matsuoka, 2019-11-14 In almost 40 per cent of households in North America, dogs are kept as companion animals. Dogs may be man's best friends, but what are humans to dogs? If these animals' loyalty and unconditional love have won our hearts, why do we so often view closely related wild canids such as foxes, wolves, and coyotes as pests, predatory killers, and demons? Re-examining the complexity and contradictions of human attitudes towards these animals, *Dog's Best Friend* looks at how our relationships with canids have shaped and also been transformed by different political and economic contexts. Journeying from ancient Greek and Roman societies to Japan's Edo period to eighteenth-century England, essays explore how dogs are welcomed as family, consumed in Asian food markets, and used in Western laboratories. Contributors provide glimpses of the lives of street dogs and humans in Bali, India, Taiwan, and Turkey, and illuminate historical and current interactions in Western societies. The book delves into the fantasies and fears that play out in stereotypes of coyotes and wolves, while also acknowledging that events such as the Wolf Howl in Canada's Algonquin Park indicate the emergence of new popular perspectives on canids. Questioning where canids belong, how they should be treated, and what rights they should have, *Dog's Best Friend* reconsiders the concept of justice and whether it can be extended beyond the limit of the

human species      *Social Behavior from Rodents to Humans* Markus Wöhr, Sören Krach, 2017-01-31 This compelling volume provides a broad and accessible overview on the rapidly developing field of social neuroscience. A major goal of the volume is to integrate research findings on the neural basis of social behavior across different levels of analysis from rodent studies on molecular neurobiology to behavioral neuroscience to fMRI imaging data on human social behavior      **Integrated Pest and Disease Management in Greenhouse Crops** Maria Lodovica Gullino, Ramon Albajes, Philippe C. Nicot, 2020-03-17 This book represents a new completely updated version of a book edited by two of the current editors published with Springer in 1999. It covers pest and disease management of greenhouse crops providing readers the basic strategies and tactics of integrated control together with its implementation in practice with case studies with selected crops. The diversity of editors and authors provides readers a complete picture of the world situation of IPM in greenhouse crops      Companion Animal Care and Welfare James Yeates, 2019-02-04 *Companion Animal Care and Welfare* The UFAW *Companion Animal Handbook* presents a comprehensive accessible and practical reference for all parties seeking information about the proper care of companion animals. Identifies the needs of companion animals, explains how we know these needs and gives scientifically backed advice on how to meet these needs. Promotes the most humane treatment and best possible care of our companion animals. Addresses controversial issues such as selective breeding, companion animal showing, the keeping of exotic species and the international pet trade. Covers the husbandry and care of all major companion animal species including mammals, birds, fish, reptiles and amphibians      *A Companion to Werner Herzog* Brad Prager, 2012-05-21 *A Companion to Werner Herzog* showcases over two dozen original scholarly essays examining nearly five decades of filmmaking by one of the most acclaimed and innovative figures in world cinema. First collection in twenty years dedicated to examining Herzog's expansive career. Features essays by international scholars and Herzog specialists. Addresses a broad spectrum of the director's films from his earliest works such as *Signs of Life* and *Fata Morgana* to such recent films as *The Bad Lieutenant* and *Encounters at the End of the World*. Offers creative innovative approaches guided by film history, art history and philosophy. Includes a comprehensive filmography that also features a list of the director's acting appearances and opera productions. Explores the director's engagement with music and the arts, his self-stylization as a global filmmaker, his Bavarian origins and even his love-hate relationship with the actor Klaus Kinski      **Egg Innovations and Strategies for Improvements** Patricia Hester, 2016-12-19 *Egg Innovations and Strategies for Improvements* examines the production of eggs from their development to human consumption. Chapters also address consumer acceptance, quality control, regulatory aspects, cost and risk analyses and research trends. Eggs are a rich source of macro and micronutrients which are consumed not only by themselves but also within the matrix of food products such as pastas, cakes and pastries. A wholesome versatile food with a balanced array of essential nutrients, eggs are a staple of the human diet. Emerging strategies entail improvements to the composition of eggs via fortification or biological enrichment of hen's feed with polyunsaturated fatty acids, antioxidants

vitamins or minerals Conversely eggs can be a source of food borne disease or pollutants that can have effects on not only human health but also egg production and commercial viability Written by an international team of experts the book presents a unique overview of the biology and science of egg production nutrient profiling disease and modes for increasing their production and quality Designed for poultry and food scientists technologists microbiologists and workers in public health and the food and egg industries the book is valuable as an industrial reference and as a resource in academic libraries Focuses on the production and food science aspects of eggs Includes a broad range of microbial contaminants their risks and prevention as well as non microbial contaminant risks Presents analytical techniques for practical application
