O. Jacobs, 2012 My vision of flying started with C Lindberg flying solo across the Atlantic and the pictures of him landing in France at night I believe I believe there was also a fellow by the name of Chamberln not sure of the spelling on his name who had planned the same trip but Lindberg beat him to it I believe he was from Iowa And then there was Col Roscoe Turner who held world s speed record at I believe it was 300 mph sometime in the early thirties And then there was Wily Post one eyed pilot who with Will Rogers a humorist from Oklahoma attempted a round the world flight and crashed and both were killed in Alaska And then the China Clipper on its maiden flight John Music I used to believe me And then there was Amelia Earhart Flying was in my blood until I did not get to attend high school so my flying dreams went out the window knowing that I would need all the education to get there So WW II came along and as you see my dream did come true to come out of service and to be qualified to fly any aircraft that was being flown in the world And now you would wonder why would anyone pass up an opportunity such as that Good question you were allowed only twenty hours a week flying time free time that bothered me being a farmer we had no free time to speak of There was nothing more boring than flying hours on end with nothing to look at It was not boring on the way to a target but on the way back to base five hours of blue sky and water We did not fly every day maybe three missions a week There was no recreation down there believe me Since I was the youngest it was expected of me to take care of my parents on the farm
