**Excellent Educators: A Wise Giver's Guide to Cultivating Great Teachers and Principals** Laura Vanderkam,2014-04-27 The strongest influence on whether a student learns and how much is the teacher Never mind fancy facilities new technology top curricula or more school spending research shows that the intelligence skill and dedication of the instructor is two to three times as important as any other contribution to student outcomes If we want to improve schools we must raise the quality of teachers Yet credentials degrees years on the job have little to do with classroom excellence

Fascinating investigations have recently given us clearer pictures of what a successful teacher looks like Now leading schools are beginning to hire and mentor teachers differently with a clear eyed focus on their demonstrated ability to transfer knowledge to their students New techniques for measuring and enhancing the teacher s capacity to add value in the classroom are the most promising elements in school reform today Putting them into effect though requires wise and brave school leaders Without bold sober demanding principals few schools will build a truly excellent set of instructors This book is for public spirited donors who want to foster educational excellence by elevating teachers and principals It reviews the latest academic research and on the ground experience of reformers and offers practical advice on multiple fronts It is written for philanthropists and allies active in the field who want to make a positive difference

*Serving Those Who Served: A Wise Giver's Guide to Assisting Veterans and Military Families* Thomas Meyers, 2013-04-22 Philanthropy for veterans military servicemembers and their families is a comparatively new and fast growing branch of American charitable giving Alas there is little good information available to help donors act wisely This book fills that gap It was created as a how to manual for philanthropists who want to make a difference with individuals who have served their nation particularly during the period since the 9 11 attacks Packed with profiles of the most promising

people and groups and strategies plus essential data this is a timely new tool for donors It is the first product of the new veterans program of The Philanthropy Roundtable which is now available to advise free of charge any donors looking to make a difference in this field     **The Giver by Lois Lowry Teacher Guide Novel Unit and Lesson Plan** John

**Technical Education** David Bass,2016-09-01 Philanthropists are already connecting educators nonprofits and companies and funneling young people and low wage adult workers into job training If expanded this assistance has the potential to move millions of Americans firmly into the middle class If you are a donor who wants to bolster America s workforce this practical book will show you how     Clearing Obstacles to Work: A Wise Giver's Guide to Fostering Self-Reliance David

Bass,2015-07-08 Cracks are becoming visible in American work habits Whole subpopulations now have weak attachments to self supporting labor This worsens poverty and economic mobility It also damages well being in subtler ways because work plays a vital role in building social connections and boosting self respect and happiness Any sensible effort to improve American prosperity today must begin by bolstering work Alas government agencies have a very checkered history when it comes to helping those who have struggled in the workforce develop the capacities to do better in the future Statistically most government job training programs are quite unimpressive There are however many charitable programs that have demonstrated real success at leading unskilled persons single mothers inexperienced minorities released prisoners former addicts and other at risk populations into lasting transformative employment This book was written to help donors find those successful models and strategies Because when it comes to curing deprivation softening inequality improving life satisfaction and strengthening society work works     **From Promising to Proven: A Wise Giver's Guide to Expanding on the**

**Success of Charter Schools** Karl Zinsmeister,2014-03-25 Twenty five years ago charter schools hadn t even been dreamed up Today they are mushrooming across the country There are 6 500 charter schools operating in 42 states with more than 600 new ones opening every year Within a blink there will be 3 million American children attending these freshly invented institutions and 5 million students in them by the end of this decade It is philanthropy that has made all of this possible Without generous donors charter schools could never have rooted and multiplied in this way And philanthropists have driven relentless annual improvements better trained school founders more prepared teachers sharper curricula smarter technology that have allowed charter schools to churn out impressive results Studies show that student performance in charter schools is accelerating every year as high performing models replace weaker ones Charter schools as a whole already exceed

conventional schools in results The top charters that are now growing so fast elevate student outcomes more than any other schools in the U S especially among poor and minority children Charter schooling may be the most important social innovation of our age and it is just beginning to boom Philanthropists anxious to improve America have more opportunities to make a difference through charter schools than in almost any other way This book provides the facts examples cautionaries inspiration research and practical experience that philanthropists will need as charter schooling shifts gears from promising experiment to mainstream movement bringing improved opportunity to millions of students

*Agenda Setting: A Wise Giver's Guide to Influencing Public Policy* John J. Miller,Karl Zinsmeister,Ashley May,2015-03-07 Donating money to modify public thinking and government policy has now taken its place next to service centered giving as a constructive branch of philanthropy Many donors now view public policy reform as a necessary adjunct to their efforts to improve lives directly This is perhaps inevitable given the mushrooming presence of government in our lives In 1930 just 12 percent of U S GDP was consumed by government by 2012 that had tripled to 36 percent Unless and until that expansion of the state reverses it is unrealistic to expect the philanthropic sector to stop trying to have a say in public policies Sometimes it s not enough to build a house of worship one must create policies that make it possible for people to practice their faith freely within society Sometimes it s not enough to pay for a scholarship one must change laws so that high quality schools exist for scholarship recipients to take advantage of Yet public policy philanthropy has special ways of mystifying and frustrating practitioners It requires understanding of governmental practice interpretation of human nature and some philosophical perspective Public policy philanthropists may encounter opponents operating from different principles who view them as outright enemies Moreover public policy struggles never seem to end victories one year become defeats the next followed by comebacks then setbacks and on and on This book was written to help donors navigate all of those obstacles It draws on deep history and rich interviews with the very best practitioners of public policy philanthropy in America today Whatever your aspirations for U S society and governance this

guide will help you find the best ways to make a difference      Closing America's High-achievement Gap: A Wise Giver's Guide to Helping Our Most Talented Students Reach Their Full Potential Andy Smarick, 2013-10-22 This intriguing book makes a powerful case for a sorely needed U S educational improvement that has been almost entirely overlooked During the last two decades philanthropists and education reformers have made urgent efforts to pull weak students up to levels of basic competency Though that vital work is incomplete there is evidence of progress among low achievers Meanwhile though children at the other end of the achievement spectrum have gotten lost in the shuffle Programs and funding once aimed at stimulating high potential students to make the most of their talents have withered and we are now doing a poor job of stimulating our quick learners When the particular needs of high potential students are not met by schools that is a moral failure because every child deserves to be stretched and challenged It is also a threat to our national interests since high achievers will be crucial to America s future ability to compete internationally This is a field where donors have wide open opportunities to lead In the pages of this fresh practical guidebook savvy school reform philanthropists will be introduced to scores of programs and institutions that can pull talented students of all ages races and income levels up to their full natural capabilities      *Tarbell's Teacher's Guide to the International Sunday-school Lessons for 1912, 1914* Martha Tarbell, 1911
