mathematics introducing stimulating ideas from modern geometry using illustrations from architecture and design The  
revolution in the teaching of mathematics and the advent of the computer in design challenge traditional ways of  
appreciating the space about us and expand the structural understanding of our surroundings through such concepts as  
transformations symmetry groups sets and graphs This book aims to show the relevance of new maths and encourages  
exploration of the widening intellectual horizons of environmental design and architecture      **Glencoe Algebra 1** Kenneth
