**Global Account Management** H. David Hennessey, Jean-Pierre Jeannet, 2004-11-19 If you buy a new BMW you may be surprised as much by the owner's manual as by the car itself. Thin, personalized and containing information only on the features you have selected in the language you speak, it is the result of a year's collaboration with Xerox that has radically improved the product and decimated costs. It is just one example of the new organizational structures and processes being developed at leading companies to serve the global marketplace. As firms realize that dealing with global customers is not simply an extension of key account management, their most common response is to launch a formal global account management initiative. Done well, this is powerful and effective; however, without proper planning, it can spell disaster. Drawing on widely accepted key success factors for global account management as well as new elements revealed by their research, David Hennessey and Jean-Pierre Jeannet redefine the process of global account management around the premise that sustainable value springs only from an expert understanding of the customer's industry, its structure, and its strategy. The book covers all critical aspects of the topic: the planning process, account selection, team building, executive support, global IT requirements, compensation structures, and more, and draws on interviews with top global account managers at leading companies including IBM, Cable and Wireless, Siemens, HP, Guinness, Cisco, and Procter & Gamble. The World Bank Group's Partnership with the Global Environment Facility The World Bank, 2015-11-18 The World Bank Group was a principal founding partner of the Global Environment Facility (GEF) in its pilot phase in 1991 and of the restructured GEF in 1994. The Bank plays three different roles in the GEF: a) as trustee of the GEF and related trust funds; b) as implementing agency, including the implementation of private sector GEF projects by the International Finance Corporation (IFC); and c) as the host organization of the functionally independent GEF secretariat. Focusing primarily on the role of the Bank as an implementing agency, this review documents how the partnership that the GEF and the World Bank Group established in the early 1990s has evolved over time, offers explanations for observed changes, and draws a number of lessons. The review addresses the following issues: The mutual relevance of the World Bank Group and the GEF; Inter-organizational coordination along the World Bank Group GEF project cycle; The introduction of the GEF's resource allocation systems in 2006 and 2010; The evolution and effectiveness of the Bank Group's GEF portfolio; Catalytic approaches in the Bank Group GEF partnership; co-financing, blending, and mainstreaming; The World Bank's corporate activities as a GEF implementing agency. The principal purposes of this review are: a) to help improve the relevance and effectiveness of the Bank Group's partnership with the GEF; and b) to draw lessons for the Bank Group's partnership with the GEF and other large global partnership programs. *The World Bank Group A to Z* World Bank Group, 2014-09-30 The World Bank Group A to Z provides ready reference insight into the history, mission, organization, policies, financial services, and knowledge products of the world's largest anti-poverty institution.
