

A sepia-toned historical illustration of a public square. In the center is a large, ornate fountain with water spraying upwards. A crowd of people in 19th-century attire is gathered around the fountain and in the square. In the background, a multi-story building with many windows is visible. Some windows have people looking out. A large flag is flying from a pole on the right side of the building. The overall scene suggests a public event or a busy day in a historical city square.

Jaffré, 2025-02-10 Louis XIII's court has long been a fixture of popular culture thanks in part to the many movie and TV adaptations of Alexandre Dumas's novel *The Three Musketeers*. Yet it remains misunderstood commonly mischaracterized as unimportant or wholly subservient to the whims of Cardinal Richelieu. Seeking to correct this narrative Marc W. S. Jaffré here offers a comprehensive analysis of the court's institutional political social cultural ceremonial and financial development emphasizing its very wide range of active participants from the nobility financiers merchants to lower ranking household members. The close study engages with the key issues of Louis's reign the destabilizing role of the minister favourite Cardinal Richelieu the turbulent family dynamics that led Louis to wage wars against his mother his brother and his cousins the backdrop of war both with the Huguenots and within the context of the Thirty Years War and the rise of salon culture. In so doing the court is shown to be a central vibrant and misunderstood element of early modern French history and culture. Courtiers artisans merchants and financiers among others are shown to have played key roles in shaping the institutional political cultural economic and military framework of the court and Louis XIII's reign more generally. In challenging the top down paradigm prevalent in court studies this monograph provides crucial correctives to the existing narrative that Louis XIII's court was weak or unimportant and simultaneously revises how early modern courts and their development have been understood historiographically. **The History of France (Vol. 1-6)** François Guizot, 2020-12-17 The History of France in 6 volumes is a comprehensive account of French history from its earliest beginnings in Gaul to 1789 written by the French historian and statesman François Guizot. According to the author's opinion there are in the history of peoples two sets of causes essentially different and at the same time closely connected the natural causes which are set over the general course of events and the unrestricted causes which are incidental. The fated causes and the unrestricted causes the defined laws of events and the spontaneous actions of man's free agency herein is the whole of history.
