How To Manual Orgasm:

A Clinician's Guide to Systemic Sex Therapy Gerald Weeks, Nancy Gambescia, Katherine M. Hertlein, 2012-08-06 A Clinician's Guide to Systemic Sex Therapy provides readers with an integrative and comprehensive theory in guiding their clinical practice. Pragmatically oriented, this text walks clinicians through diagnosis and treatment with resources such as tables, graphs, flow charts, and implementation strategies. The text does not rely on only visual elements; however, acknowledging that information needs to be guided by a theory that can be translated into practice, the authors use the Intersystems approach to provide a comprehensive perspective in understanding and improving intimate and sexual relationships for clients. A Clinician's Guide addresses and fills the lack of theoretical integration in the practice of couple and sex therapy and provides a relevant follow-up to the authors' extensive text *Systemic Sex Therapy* (Routledge, 2008). This book is an essential roadmap for translating theory into practice and trains clinicians to give their clients the most thorough and valuable assistance possible.

Organ Orgasms Robert Ian Rollwagen, 2020-06-29 Conscious blood flow (CBF) is about enhancing our physical, mental, and spiritual wellbeing through the pleasurable and mindful exercising of your body's internal arteries and organs. This is brought about by becoming attuned to your natural abilities to just be and by learning to sense your interior body and then being able to consciously direct and control the flow of your blood. And one can orgasm many organs; hence the book's title of *Organ Orgasms*. Despite the catchy but true title, this book is about the mystery and joy of experiencing one's existence in a unique way, an aspect of being and about discovering our bodies and nourishing them so we can experience our lives in the healthiest and longest way possible, an aspect of wellbeing. Thus, *Organ Orgasms* is really about being and wellbeing. It will enable people, no matter what stage they are at in life, to see more clearly into themselves and then use the book as a guide in developing their own personal plan for living more joyously and healthily. *Organ Orgasms* is not formulaic or like other self-help books, but it will help people learn how to take care of themselves better and get them rethinking about their purpose in life and ensure their wellbeing. The book is written for the lay reader and includes over 150 extremely useful illustrations. Yet it has also been cleverly crafted to meet the needs of the scholarly reader by the use of endnotes and appendices, which provide a stunning amount of scientific evidence for how the body, brain, and mind work to make CBF possible.
