Ngang,2021-10-18 In *The Right to Development in Africa* Carol Chi Ngang provides a conceptual analysis of the human right to development with a decolonial critique of the requirement to have recourse to development cooperation as a mechanism for its realisation In his argumentation the setbacks to development in Africa are not necessarily caused by the absence of development assistance but principally as a result of the lack of an operational model to steer the processes for development towards the highest attainable standard of living for the peoples of Africa Basing on the decolonial and capability theories he posits for a shift in development thinking from dependence on development assistance to an alternative model suited to Africa which he defines as the right to development governance

Salomon,Arjun Sengupta,2003-02-10 The United Nations adopted the Declaration on the Right to Development in 1986 The Declaration recognizes that development is an inalienable human right and describes development as a comprehensive

process leading to the well being of all people All states are called upon to cooperate internationally and work nationally to ensure that this comprehensive process in which all human rights can be realized is undertaken without discrimination and that all people may participate fully and equally in this process This paper provides an elaboration of the content of the right to development by drawing on international law It addresses the obligations of states particularly with regard to international cooperation and considers the application of obligations of conduct as well as those of result in giving this right meaning This paper also details the rights of minorities and indigenous peoples and how they relate to the right to development The creation of conditions that enable a state to develop will not necessarily lead to the realization of the right to development by the individuals within that state Traditionally marginalized groups notably minorities and indigenous peoples may not benefit from this development or may be harmed by it Even where the right to development is being realized by the majority the rights of minorities and indigenous peoples could be violated if the process undertaken does not take account of their rights The authors discuss the need to have in place the standards to ensure that the protection and promotion of minority and indigenous rights are fully integrated into policies designed to fulfil the right to development Written in cooperation with the UN Independent Expert on the right to development this work builds on his contribution to the mandated objectives of the inter state UN Working Group on the Right to Development It provides an important contribution to the scope of rights and obligations in this area and the implications that stem from them particularly for minorities and indigenous peoples **Atlas of Gender and Development How Social Norms Affect Gender Equality in non-OECD Countries** OECD,2010-02-22 Gender inequality holds back not just women but the economic and social development of entire societies This atlas presents a new measure of gender inequality which examines women s status according to family situation physical integrity son preference civil liberties and ownership rights *Women and Gender Equity in Development Theory and Practice* Jane S. session of teaching or graduate seminar Written by a team of expert authors from around the world many of whom are actively teaching the subject the book provides a thorough and balanced overview of current knowledge issues and relevant debates integrating information from the environmental health and social sciences *Indigenous People in Africa* Laher, Ridwan, SingiOei, Korir, 2014-05-05 This volume is an attempt to provide this intersectional and reflexive space The thinking behind the book began in Lamu in mid 2010 It was a time when growing community resistance emerged towards the Kenyan government's plan to build a second seaport under a trans frontier infrastructural project known as the Lamu Port South Sudan Ethiopia Transport Corridor LAPSET The editors agreed that a book that draws community activists academics researchers and policy makers into a discussion of the predicament of indigenous rights and development against the backdrop of the Endorois case was timely and needed Assembled here are the original contributions of some of the leading contemporary thinkers in the area of indigenous and human rights in Africa The book is an interdisciplinary effort with the single purpose of thinking through indigenous rights after the Endorois case but it is not a singular laudatory remark on indigenous life in Africa The discussion begins by framing indigenous rights and claims to indigeneity as found in the Endorois decision and its related socio political history Subsequent chapters provide deeper contextual analysis by evaluating the tense relationship between indigenous peoples and the post colonial nation state Overall the book makes a peering and provocative contribution to the relational interests between state policies and the developmental intersections of indigeneity indigenous rights gender advocacy environmental conservation chronic trauma and transitional justice **International Covenant on the Right to Development**, 2025-08-04 In this pioneer compilation of academic literature on the International Covenant on the Right to Development including some of the leading experts on the subject the authors delve at length into the central enquiry on how and to what extent the Covenant will as a binding instrument of international law shape the global balance of power Envisaged to be incorporated in the international bill of human rights the analysis on the various component elements leads to the conclusive argument that once in force the Covenant on the Right to Development will have major implications for how the international order is structured and how development is henceforth pursued
