The serial number of each major unit is also stamped on the unit itself. If a major unit is replaced by a new one, the serial number on the identification plate will be wrong. Either stamp the new number of the unit on the identification plate, or simply stamp out the old number. This will prevent the wrong unit number being quoted when replacement parts are ordered.

The machine and engine serial numbers can help identify, exactly the type of equipment you have.

Unit Identification

The engine serial number is stamped on label **W** which is fastened to the right side of the cylinder block, near the filter.
