Town Journal ,1936 *The Journal of Canadian Petroleum Technology* ,1989 *Sound and Noise* Marcia Jenneth Epstein,2020-10-30 This book is about how you listen and what you hear about how to have a dialogue with the sounds around you Marcia Jenneth Epstein gives readers the impetus and the tools to understand the sounds and noise that define their daily lives in this groundbreaking interdisciplinary study of how auditory stimuli impact both individuals and communities Epstein employs scientific and sociological perspectives to examine noise in multiple contexts as a threat to health and peace of mind as a motivator for social cohesion as a potent form of communication and expression of power She draws on a massive base of specialist literature from fields as diverse as nursing and neuroscience sociology and sound studies acoustic ecology and urban planning engineering anthropology and musicology among others synthesizing and explaining these findings to evaluate the ubiquitous effects of sound in everyday life Epstein investigates speech and music as well as noise and explores their physical and cultural dimensions Ultimately she argues for an engaged public dialogue on sound built on a shared foundation of critical listening and provides the understanding for all of us to speak and be heard in such a discussion *Sound and Noise* is a timely evaluation of the noise that surrounds us how we hear it and what we can do about it Havana Syndrome Armin Krishnan,2025-09-04 Havana Syndrome is most likely caused by unknown types of directed energy weapons either of the acoustic or electromagnetic variety The technology for such weapons has been under development since at least the 1960s The first covert attacks on U S diplomats may go back to that time when the phenomenon was called the Moscow Signal Havana Syndrome A Threat to National Security covers the history of anti personnel directed energy weapons DEW from the Soviet psychotronic weapons that were rumored to exist since the 1970s to the nonlethal weapons developed in the West in the 1980s onward The book examines the publicly known details of Havana Syndrome and provides some analysis of the U S government investigations into Havana Syndrome with respect to what has been declassified The most likely perpetrators are the Russian or Chinese governments as some incidents seem to be related to their strategic interests and as both would have the technology to carry out such sophisticated attacks Havana Syndrome establishes a connection between the Anomalous Health Incidents and what NATO analysts have termed cognitive warfare to speculate about the true purpose of these mysterious attacks Archives of Acoustics Quarterly ,2015 **Abg Series: Eksp.
