Key Features of Functions

Linear, quadratic, and absolute-value functions can be graphed using key features that the equation identifies. Key features can be labeled using either set builder notation or interval notation. Interval notation represents a set of real numbers by a pair of values. Parentheses are used when the points are not included. Brackets are used for when a boundary point is included.

1. Use the function $f(x) = x^2 - 16$ and identify the key features that are listed in the table for the graph. Label the graph with the key features.

Key Feature	
Domain	all real numbers
Range	$x > \text{ or } = -16$
Minimum Value	$(0, -16)$
x - intercept	$-4, 0, 4, 0$
y - intercept	$0, -16$
Function is Positive	$-\infty, -4, 4, \infty$
Function is Negative	$-4, 4$
Interval Increasing	∞
Interval Decreasing	$-\infty$

Domain: all real numbers
Range: $x > \text{ or equal to } -16$

2. Cheyenne interpreted the following function: $f(x) = x + 4$ as the first step before graphing it. She wrote her answers in the table. Find and fix her error.

Key Feature	Answer
Domain	$\{-\infty, \infty\}$
Range	$\{-\infty, \infty\}$
x - intercept	$x = 4$
y - intercept	4
Function is positive	$\{-4, \infty\}$
Function is negative	$\{-\infty, -4\}$

wrong, it would be -4

3. Identify the key features of the following graph: $f(x) = |x - 3|$

Key Feature	Clues	Answer
Domain	Values of the x -axis	all real numbers
Range	Values of the y -axis	$x > \text{ or equal to } 0$
Minimum value	Lowest point on the graph	3
x - intercept	When $y = 0$	-3
y - intercept	When $x = 0$	3
Function is positive	Function is above the x axis	$-\infty, 3, \infty$
Function is negative	Function is below the x axis	NA

Macmillan/McGraw-Hill Math: Teacher ed., v. 1, 2004 *Assessment for Learning* Rita Berry, 2008-09-01

Assessment is an important part of effective teaching and learning It allows achievements to be recognized and helps both teachers and learners to reflect on and review their performance and progress While assessment has long been an end of learning activity to measure what learners can do the outcome oriented approach does not always foster learning motivation effectively A new perspective now encourages ongoing appraisal in the classroom to improve learning This book reflects current thinking of assessment with a stated focus on assessment for learning AfL It informs teachers about the latest developments and provides teachers with important tools for integrating assessment in the classroom The discussions on assessment theories are in depth and the examples used for illustrating the concepts are plentiful *Educational Assessment of Students*

Anthony J. Nitko, 2004 A highly respected book in its field The Educational Assessment of Students 4 e is the most thorough discussion of traditional and alternative assessments of any text explaining giving practical real world examples discussing pros and cons and showing how to construct virtually all of the choices teachers can make in classroom assessment Theories and research findings about the author examines why when and how teachers should use assessment in the classroom Topics include the bases for assessment in the classroom crafting and using classroom assessments and interpreting and using standardized tests With its extensive and valuable appendix set this book is a must have desk reference for teachers and others involved in the field of education The New Living & Learning in Home Economics 6 Tm , **Learning and Living in the 21st Century 6 Teacher's Manual 1st Ed. 2007** , **Science in Your World: Teacher edition** Jay K. Hackett, 1991 **General Pedagogy** Martha M. A. Zama, Margaret Nalova Endeley, 2023-02-24 General Pedagogy A Guide to Effective Teaching demystifies the scientific art of teaching by providing facts principles and concrete examples in real life situations such that neither the novice teacher who peruses it will stutter in front of students on the first day of school nor will the experienced teacher write and execute the same old lesson plans on that day The best teachers are those who show you where to look but don't tell you what to see is a popular quote attributed to Alexandra K Trenfor which aptly summarises the kind of teachers this book intends to produce when used as a teacher training resource Real teachers facilitate learning they do not simply tell learners the answers to their questions and concerns Accordingly the authors take the readers through well researched themes in the academic discipline of teaching wherein they present analyse and discuss pertinent issues Although they provide useful suggestions for teaching success the authors encourage teachers to interpret facts ideas and suggestions presented against the sociocultural contexts of their practice The materials are presented creatively while adding a personal touch intended to facilitate effective and efficient learning For coherence and better comprehension the book has been carefully crafted in eighteen chapters lodged in six parts The first part introduces the reader to the concepts of teaching and teaching effectiveness The theoretical underpinnings of these concepts are brought out in the second part which paves the way for the third part that describes generic teaching approaches strategies and methods Part four and five comprise essential teaching skills and teaching tools for the 21st century while part six wraps up with the transition from teacher training laboratories to classrooms in the real world The last two chapters intentionally prepare the teacher to overcome challenges of professional work in contemporary African classrooms **Effective Instructional Strategies** Kenneth D.
