curriculum personnel pedagogy and resources Professional autonomy trumps structural autonomy The Autonomy Premium is essential reading for anyone with an interest in understanding the policy and practice of designing drivers that can shape successful school autonomy *The Age of Accountability* Dominic Belmonte, 2020-05-14 It is clear that American public education has been under assault for more than the last 30 years So much of this current age of accountability has focused on blame both of teachers and those who prepare them Somehow unlike in other professions declarations were made to the effect that anyone could teach better than teachers including business leaders and people from top universities without teacher preparation The Age of Accountability scrutinizes the attack on teachers through weaponized data While an effective corporate tool to improve bottom line goals its use in education became more sinister and misanthropic International PISA scores imply the mediocre ability of American students fueling a belief that American education needed more than an upgrade The only answer that would placate many was a complete upheaval a redefinition of a teacher and who should be permitted to become one We teachers ceded authority to these business and legislative forces Their subsequent fervor for testing overwhelmed teaching and drove the joy out of schooling for students It is time for a recounting of what has been done to the profession and to our children Young teachers need encouragement and veteran teachers need reminding of their valiant and effective efforts Perfect for courses such as History of Education Assessment in Teacher Evaluation Value Added Metrics Urban Education University Teacher Preparation Teaching and Learning A Consequential President Michael D'Antonio, 2017-01-03 Recounts the accomplishments of President Obama during his eight years in office considering his major successes and how he was able to govern while facing both racial hostility and unrealistic expectations Bloomberg Chris McNickle, 2017-09-19 Examine the Bipartisan Legacy of a Remarkable Billionaire Politician Bloomberg A Billionaire's Ambition tells the story of how one of America's most successful entrepreneurs was elected mayor of New York City and what he did with the power he won Bloomberg's stunning victory against all odds just weeks after the 9/11 terrorist attack left him facing challenges unlike any mayor in history For the next twelve years he kept the city safe managed budgets through fiscal crises promoted private sector growth generated jobs built infrastructure protected the environment supported society's cultural sensibilities and achieved dramatic improvements in public health Bloomberg was an activist executive who used government assets boldly and wisely for the greatest good for the greatest number of people His time as mayor was not without controversy Bloomberg supported stop and frisk police tactics that a judge ruled unconstitutional and jailhouse violence rose to levels so severe the federal government intervened The administration's homeless policies were ineffective And he forced a change in the city charter to allow him to serve a third term Overall record low crime and the lasting impact of innovative policies will cause his tenure to be remembered as a remarkable success Having returned to his global media empire and to his private philanthropy Bloomberg continues to challenge the National Rifle Association on gun control promote national education reform and support policies to combat climate change Frequently touted as an independent

candidate for president Bloomberg leaves behind a legacy of effective government Donald Trump, Tiger Woods, Bernie Madoff, and Dick Cheney: the Anatomy of Evil John Doe PhD, 2019-02-28 On September 5th 2018 the New York Times published an anonymous editorial Many Trump appointees have vowed to do what we can to preserve our democratic institutions while thwarting Mr Trump's more misguided impulses until he is out of office The root of the problem is the president's amorality Trump's behavior is dangerously unpredictable He is the epitome of the Anomic Personality whose major trait is unlimited striving He shares in the symptom clusters of The Dark Tetrad Aggressive Narcissism Machiavellianism Psychopathy and Sadism His behavior and his own quotes convince us of the dangers of his continuance in office Like other oligarchs he seeks sex money and power Faced with charges by the Mueller and five other investigations he lashed out by creating an emergency a 35 day government shutdown How Trump won and why his base voted for him is explained in terms of U S history national character social class differences in child rearing inequality and blind attachment which may be in our DNA due to early Cro Magnon parental hypervigilance for fear of predators The United Nations IPCC Report tells us that we have only twelve more years in which to reverse global warming After that time it will be irreversible Can we let a president who doesn't believe in climate change use up another six years or one half of our chance of survival time
