**An Introduction to Zoology** R. Ramsay Wright,2015-06-02 Excerpt from An Introduction to Zoology For the Use of High Schools The present volume has been prepared with the object of aiding the study of Zoology in the Ontario High Schools Already one branch of Natural History Botany has been introduced with gratifying results and it is thought that the addition of the elements of Zoology to the course may similarly awaken a wide spread interest in animal life throughout the Province The plan of treatment adopted is substantially that of the Syllabus prescribed by the Education Department Attention is first directed to the Vertebrates as the most familiar and conspicuous animals but the essential characteristics of the chief groups of Invertebrates are also given the greater amount of space being however devoted to such groups as have terrestrial or fresh water representatives In each of the classes of the Animal Kingdom some easily obtainable form is employed as a type in which to point out the more obvious structural features of the class and it is assumed that these will be verified by actual examination A number of figures have been introduced partly with the view of facilitating such examination

partly to illustrate the less accessible forms These have for the most part been copied from scientific works like the publications of the U S Fish Commission Brehm s Thierleben etc but a few have been drawn for the occasion Figs 1 and 58 with several others being from the pen of Mr E E Thompson About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at [www.forgottenbooks.com](http://www.forgottenbooks.com) This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Syllabus for Zoology 318,**
