education international and comparative education and education policy and politics      Culture and International Conflict Resolution Tarja Vayrynen, 2001-12-07 The book will be of interest to students of conflict and peace studies both advanced undergraduate and postgraduate as well as students of International Relations studying conflict resolution Jacket      *What Causes War?* Greg Cashman, 2013-07-29 Now in a thoroughly revised and updated edition this classic text presents a comprehensive survey of the many alternative theories that attempt to explain the causes of interstate war For each theory Greg Cashman examines the arguments and counterarguments considers the empirical evidence and counterevidence generated by social science research looks at historical applications of the theory and discusses the theory's implications for restraining international violence Among the questions he explores are Are humans aggressive by nature Do individual differences among leaders matter How might poor decision making procedures lead to war Why do leaders engage in seemingly risky and irrational policies that end in war Why do states with internal conflicts seem to become entangled in wars with their neighbors What roles do nationalism and ethnicity play in international conflict What kinds of countries are most likely to become involved in war Why have certain pairs of countries been particularly war prone over the centuries Can strong states deter war Can we find any patterns in the way that war breaks out How do balances of power or changes in balances of power make war more likely Do social scientists currently have an answer to the question of what causes war Cashman examines theories of war at the individual substate nation state dyadic and international systems level of analysis Written in a clear and accessible style this interdisciplinary text will be essential reading for all students of international relations      *Human Computer Interaction: Concepts, Methodologies, Tools, and Applications* Ang, Chee Siang, Zaphiris, Panayiotis, 2008-10-31 Penetrates the human computer interaction HCI field with breadth and depth of comprehensive research      **Causes and Consequences of International Conflict** Glenn Palmer, 2009-10-16 Investigation into the causes of international conflict has in many ways formed the central locus of the early work in the scientific investigation of world politics This edited volume contains the most recent quantitative work in this area reflecting the current state of the field in the topics addressed the data utilized and the methods employed The book is divided into three parts presenting first some recent contributions to the work on the causes of international conflict set in the context of realist theories The second part addresses issues relating to data methods and cases used to analyze international conflict while the third part presents some examples of the use of a variety of different methods to answer questions relating to issues which engage international relations scholars today The chapters focus on a variety of pertinent topics and include discussions of important innovations in our ability to analyze conflict such as the introduction of the Militarized Interstate Dispute MID data      **International Multiparty Mediation and Conflict Management** Sinisa Vukovic, 2015-10-05 This volume aims to provide a detailed explanation of the effects of cooperation and coordination on international multiparty mediation in conflicts Contemporary scholarship stresses that the crucial ingredients for a successful multiparty mediation are consistency in interests and

cooperation and coordination between mediators This book seeks to supplement that understanding by investigating how much the consistency of interests and cooperation and coordination affect the overall process and what happens to the mediation process when mediating parties do not share the same idea and interest in finding a common solution At the same time it explores the obstacles in achieving coordination and coherence between various mediators in such an environment and how to surmount the problems that multiple mediators face when operating without a common script in attempting to mediate a negotiated settlement The study investigates three distinct mechanisms both on the systemic and contextual level that have the potential to deter defection from a potential member of the multiparty mediation coalition geo political shifts changes in the conflict dynamics and mediators ability to bargain for a cooperative relationship As the number of states and international actors that are involved in mediation increases a careful assessment is necessary not only of their relative institutional strengths and weaknesses but also of how to promote complementary efforts and how to synchronize the whole process when one actor is transferring the responsibilities for mediation to others This book will be of much interest to students of mediation conflict management war and conflict studies security studies and IR The Open Access version of this book available at <https://www.routledge.com/International+Multiparty+Mediation+and+Conflict+Management+Challenges+of+Vukovic/p/book/9781138087897> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

Arming the Two Koreas Taik-Young Hamm, 2012-10-12 North Korea has traditionally been seen as militarily superior to South Korea in the long feud between the two nations This brilliantly argued book taps into a great deal of news interest in North Korea at the moment in the wake of recent hostility against Japan Hamm controversially shows that the received idea of Korea's military strength is partly a myth created by South Korea to justify a huge programme of rearmament
