Turning Average Instruction Into Great Instruction John O'Connor,2009-01-16 Turning Average Instruction into Great Instruction details a clear and concise approach to school improvement focusing school leaders on the critical factor that has the greatest impact on student achievement classroom instruction Decades of research demonstrate that what happens between teachers and students in our nation s classrooms has the greatest impact on how well those students learn The current trend in school reform is to tackle all aspects of a school in order to improve student achievement forcing school leaders to attempt to focus on the school culture use of materials community relations teachers pre service training the school s physical design classroom decorations and instruction Unfortunately such a wide scope leads to a lack of focus among school staff With his singular focus on classroom instruction what O Connor suggests is an antithesis to that approach School leaders will develop a common understanding of the high impact instructional components that should be seen in every classroom O Connor maps out how school leaders can align all personnel to systematically build training support and monitoring mechanisms that ensure that effective instruction becomes part of every classroom routine *Atlanta Magazine*

Poetics of Curriculum, Poetics of Life Mary-Elizabeth Vaquer, 2016-02-10 Through multiple lenses of curriculum studies the author explores how poetry is situated in the pedagogical world Her work aims to illuminate how poetry is studied in schools and how these practices of studying poetry give poetry its cultural identity Each chapter is guided by insight from John Dewey s Art as Experience which promotes explorations of opportunities for students to have profound experiences with poetry and art in schools The purpose of this book is not to offer a prescription for teachers to use in their classrooms This is not an outline regarding how someone should include poetry in a lesson plan Rather the author explores why poetry is important in our lives and how poetry can contribute to opening avenues for new possibilities through imagination and transformation based on phenomenological experience and scholarship She explores poetry through Dewey s notion of aesthetics across diverse aspects of meaning making through poetry in a contemporary context She also explores the influences that poetry has on the curriculum of our lives and the influence that our lived curriculum has on the future of poetry
