this new edition of The Manual of Museum Learning leading museum education professionals offer practical advice for creating successful learning experiences in museums and related institutions such as galleries zoos and botanic gardens that can attract and intrigue diverse audiences The original Manual of Museum Learning was published in 2007 The editors have totally rethought this new edition This second edition focuses on the ways museum staffs and the departments for which they work can facilitate the experience in a way that capitalizes on their individual institutional strengths The goal of this new edition is to provide museums with guidance in developing a strategic approach to their learning programs There is a close connection between institution wide strategic planning where an institution decides what course and direction it will take for a five to seven year period and its approach to museum learning One size does not fit all and what each museum is or aspires to be will affect its individual approach Thus there are many routes for museums to take many alternative ways for them to play this role No one museum can be all things to all prospective learners they will be better suited to some approaches than to others This new edition identifies these approaches and enables museums to find the paths for which they are individually best suited to help them identify their own unique approaches to facilitating museum learning Each one s mission and vision its relationships with institutional and public stakeholders local cultural and market factors its individual collection and programmatic strengths its financial position all of these things matter This second edition aims to help each museum find the right approach to learning for its unique situation by showing them the range of museum personalities in terms of their being learning institutions what constitutes each type and what the implications are of choosing one or another approach for a particular museum A major theme of the 2nd edition of The Manual of Museum Learning is museum as connector the ways in which museums are facilitating self directed learning by connecting people with resources Not all will connect audiences with learning vehicles in the same way If museum learning is affective learning then it is the role of the museum to connect its visitors program participants and others who benefit from its knowledge to the learning resources that best suit the institution s strengths and matches them to the learning needs of the museum s audiences By connecting users to the resources they are most interested in or which best suit each individual s particular learning styles museums are at their best when they empower individuals to design their own learning experience in ways that resonate best with each individual

Old-House Journal ,2005-03 Old House Journal is the original magazine devoted to restoring and preserving old houses For more than 35 years our mission has been to help old house owners repair restore update and decorate buildings of every age and architectural style Each issue explores hands on restoration techniques practical architectural guidelines historical overviews and homeowner stories all in a trusted authoritative voice [An Honest Enemy](#) Paul Magid,2020-04-23 Over the course of his military career George Crook developed empathy and admiration for American Indians both as foes and as allies As Paul Magid has demonstrated in the previous two volumes of his groundbreaking biography this experience prepared Crook well for his metamorphosis from Indian fighter to outspoken advocate of Indian rights An Honest Enemy is the third

and final volume of Magid's account of George Crook's life and involvement in the Indian wars. Using rarely tapped information including Crook's own diaries, the work documents in dramatic detail the general's arduous and dangerous campaigns against the Chiricahua Apaches and their leader Geronimo, action that forms a backdrop to the transformation in the general's role vis-à-vis Native Americans. In a story by turns harrowing and tragic, Magid details the plight of Indians who in the aftermath of their defeat were consigned to reservations too barren to sustain them where they were subjected to impoverishment, indifference, and in many cases outright corruption. With growing anger, Crook watched as many tribes faced death from starvation and disease and unwilling to passively accept their fate, desperately sought to flee their reservations and return to their homelands. Charged with the grim task of returning the Indians to such conditions, Crook was forced to choose between fulfilling his duties as a soldier and his humanitarian values. Magid describes Crook's struggle to reconcile these conflicting concerns while promoting policies he regarded as essential to the welfare of the Indians in the face of a hostile public, jealous fellow officers, and an unsympathetic government that regarded his efforts as quixotic and misguided. Here is a tale that readers will not soon forget.

New Directions for Special Collections Lynne M. Thomas, Beth M. Whittaker, 2016-10-31. Addressing the most exciting and challenging areas in the profession, this text will be invaluable to any professional looking ahead to the future of special collections and related cultural heritage work. Special collections today, from rare books and other specialized book collections to audio recordings and visual images, offer librarians limitless opportunities to showcase their skills in curating, preserving, and offering access to these resources to patrons. Drawing on innovative practices and enduring values to address challenges and opportunities in the broad realm of special collections librarianship, this book updates the notion of special collections to the wide range of materials, institutions, and contexts where they exist today. The contributed essays describe the various kinds of innovative projects and practices that are sought by IMLS and other funding agencies today and serve to illustrate how going beyond a traditionally limited idea of special collections opens doors to far more engaging opportunities. Spanning the converging worlds of academic and special libraries, rare book collections, archives, museums, and other cultural heritage institutions, this book will be useful to newcomers and seasoned professionals alike. The essays address the recurring themes of managing and welcoming change and the impact of digital technologies throughout the book, whether regarding new approaches to outreach and instruction, the acquisition and curation of non-traditional collections, new structures for discovery and access in a digital world, or the nature of special collections work now. Both experienced professionals and recent graduates from one of the booming archival studies programs will find this text invaluable in creating a successful career in special collections or cultural heritage curation today and in the near future.
