How Europe Made the Modern World Jonathan Daly, 2019-10-03 One thousand years ago a traveler to Baghdad or the Chinese capital Kaifeng would have discovered a vast and flourishing city of broad streets spacious gardens and sophisticated urban amenities meanwhile Paris Rome and London were cramped and unhygienic collections of villages and Europe was a backwater How then did it rise to world preeminence over the next several centuries This is the central historical conundrum of modern times How Europe Made the Modern World draws upon the latest scholarship dealing with the various aspects of the West's divergence including geography demography technology culture institutions science and economics It avoids the

twin dangers of Eurocentrism and anti Westernism strongly emphasizing the contributions of other cultures of the world to the West's rise while rejecting the claim that there was nothing distinctive about Europe in the premodern period Daly provides a concise summary of the debate from both sides whilst also presenting his own provocative arguments Drawing on a wide range of primary and secondary sources and including maps and images to illuminate key evidence this book will inspire students to think critically and engage in debates rather than accepting a single narrative of the rise of the West It is an ideal primer for students studying Western Civilization and World History courses

European cultures Drawing from formal oriental studies epigraphy travel literature and theology Henning Tr per explores how the attempt to appropriate the world by attaching language to the notion of a real reference in the world ultimately produced a crisis of meaning In the process Tr per convincingly challenges received understandings of the intellectual genealogies of oriental scholarship and its practices This ground breaking study is a meaningful contribution to current discourses about philology and significantly adds to our understanding about the relationship between discursive practices cultural agendas and political systems As such it will be of immense value to scholars researching Europe and the modern world the history of philology and those seeking to historicise the prevalent debates in theory **Public Drinking in the Early Modern World Vol 1** Thomas E Brennan,B Ann Tlusty,Beat Kumin,David Hancock,Michelle McDonald,2024-08-01 This four volume reset edition presents a wide ranging collection of primary sources which uncover the language and behaviour of local and state authorities of peasants and town dwellers and of drinking companions and irate wives *Cultures of Diplomacy and Literary Writing in the Early Modern World* Tracey A. Sowerby,Joanna Craigwood,2019-06-20 This interdisciplinary volume explores core emerging themes in the study of early modern literary diplomatic relations developing essential methods of analysis and theoretical approaches that will shape future research in the field Contributions focus on three intimately related areas the impact of diplomatic protocol on literary production the role of texts in diplomatic practice particularly those that operated as textual ambassadors and the impact of changes in the literary sphere on diplomatic culture The literary sphere held such a central place because it gave diplomats the tools to negotiate the pervasive ambiguities of diplomacy simultaneously literary depictions of diplomacy and international law provided genre shaped places for cultural reflection on the rapidly changing and expanding diplomatic sphere Translations exemplify the potential of literary texts both to provoke competition and to promote cultural convergence between political communities revealing the existence of diplomatic third spaces in which ritual symbolic or written conventions and semantics converged despite particular oppositions and differences The increasing public consumption of diplomatic material in Europe illuminates diplomatic and literary communities and exposes the translocal as well as the transnational geographies of literary diplomatic exchanges Diplomatic texts possessed symbolic capital They were produced archived and even redeployed in creative tension with the social and ceremonial worlds that produced them Appreciating the generic conventions of specific types of diplomatic texts can radically reshape our interpretation of diplomatic encounters just as exploring the afterlives of diplomatic records can transform our appreciation of the histories and literatures they inspired **International Orders in the Early Modern World** Shogo Suzuki,Yongjin Zhang,Joel Quirk,2013-09-05 This book examines the historical interactions of the West and non Western world and investigates whether or not the exclusive adoption of Western oriented international norms is the prerequisite for the construction of international order This book sets out to challenge the Eurocentric foundations of modern International Relations scholarship by examining international relations in the early modern era when

European primacy had yet to develop in many parts of the globe Through a series of regional case studies on East Asia the Middle East Africa and Latin America and Russia written by leading specialists of their field this book explores patterns of cross cultural exchange and civilizational encounters placing particular emphasis upon historical contexts The chapters of this book document and analyse a series of regional international orders that were primarily defined by local interests agendas and institutions with European interlopers often playing a secondary role These perspectives emphasize the central role of non European agency in shaping global history and stand in stark contrast to conventional narratives revolving around the Rise of the West which tend to be based upon a stylized contrast between a dynamic West and a passive and static East Focusing on a crucial period of global history that has been neglected in the field of International Relations International Orders in the Early Modern World will be interest to students and scholars of international relations international relations theory international history early modern history and sociology
