Note: Air quality of PM<sub>2.5</sub> and IQ% are showed through the change of font color accordingly.

## Mode and Setting

**Sleep mode:** The screen and indicator light will extinguish during set time durations and the frequency of data collection will reduce to once per hour. Switch the mode using the App if the device is connected to network.

**Energy-saving mode:** The frequency of data collection for the device will reduce to once per hour. Switch the mode using the App if the device is connected to network.

**IQ%:** The data reflect the impact of the air environment on an individual's cognitive ability, as the latter differs according to the air environment. Higher IQ% means better effect of the air environment on cognitive ability. Cognitive ability mainly includes the following: basic mobility; utilization of mobility; level of focus on assigned task; information collection; information processing; breadth of thought; strategy; task orientation and response to crisis.

Note: Cognitive ability differs from individual to individual. IQ% only reflects the impact of air environment elements on cognitive ability. An excellent air environment is capable of effectively raising cognitive ability, thus improving efficiency of various activities.
