There were 3 frogs that lived on an island. One frog was named Jessica, and she was very curious!

When the egg hatched, an alligator came out. The frogs all thought it was a chicken, though.

They found the alligator's mom Jessica and the other frogs thought it was strange the mom called her baby "chicken" an alligator.

Jessica and the alligator met a bird that helped them find the alligator's mom.

One day, Jessica thought she found a HUGE pebble. It was actually an egg!

web in most cases a simple machine is used to reduce the amount of force you must exert to do work the down side is that you must exert the force over a greater distance because the product of force and distance fd which equals work does not change let's examine how this works in practice

simple machines and how to use this tutorial khan academy - Jul 13 2023

web there are six simple machines they are as follows lever wheel pulley incline plane wedge and screw this tutorial will cover the first three simple machines can give you a mechanical advantage in other words they allow you to spread the force you apply to move an object over a distance
