Medical Image Computing and Computer-Assisted Intervention -- MICCAI 2010 Tianzi Jiang, Nassir Navab, Josien P.W. Pluim, Max A. Viergever, 2010-09-21 The 13th International Conference on Medical Image Computing and Computer Assisted Intervention MICCAI 2010 was held in Beijing China from 20-24 September 2010

The venue was the China National Convention Center CNCC China's largest and newest conference center with excellent facilities and a prime location in the heart of the Olympic Green adjacent to characteristic constructions like the Bird's Nest National Stadium and the Water Cube National Aquatics Center MICCAI is the foremost international scientific event in the field of medical image computing and computer assisted interventions The annual conference has a high scientific standard by virtue of the threshold for acceptance and accordingly MICCAI has built up a track record of attracting leading scientists engineers and clinicians from a wider range of technical and biomedical disciplines This year we received 786 submissions well in line with the previous two conferences in New York and London Three program chairs and a program committee of 31

scientists all with a recognized standing in the field of the conference were responsible for the selection of the papers. The review process was set up such that each paper was considered by the three program chairs, two program committee members and a minimum of three external reviewers. The review process was double blind so the reviewers did not know the identity of the authors of the submission. After a careful evaluation procedure in which all controversial and gray area papers were discussed individually, we arrived at a total of 251 accepted papers for MICCAI 2010 of which 45 were selected for podium presentation and 206 for poster presentation. The acceptance percentage 32% was in keeping with that of previous MICCAI conferences. All 251 papers are included in the three MICCAI 2010 LNCS volumes.
