Platonic Questions Diskin Clay, 2010-11-01 The dialogue has disappeared as a mode of writing philosophy and philosophers who study Plato today often ignore the form in which Plato's work appears in favor of reconstructing and analyzing arguments thought to be conveyed by the content of the dialogues A distinguished classicist here offers an approach to understanding Plato that tries to do full justice to the form of Platonic philosophy appreciated against the background of Greek literature and history while also giving proper due to the important philosophic content of the dialogues The book deals in turn with Plato's relation to and portraits of Socrates the literary and philosophical character of the dialogues including the problems of interpreting a philosopher who never speaks in his own name and the modes of argumentation employed in the dialogues as well as some of their major themes

composers poets and readers within and beyond Greece and the Greek diaspora **Material Mystery** Karmen MacKendrick, 2021-08-17

Material Mystery considers three apparently anthropocentric myths that are central to Abrahamic religions those of the primal human the incarnated and possibly divine redeemer and the resurrected body At first glance these stories reinforce a human centered theology and point to a very anthropomorphic God Taking them seriously seems to ignore the material turn in the humanities entirely with the same sort of willful ignorance that some of our politicians show in declaring that their myths count as facts or that the point of the rest of the world is to further human consumption But it is possible Karmen MacKendrick shows to read these figures through a particular tradition that emerges from the Hebrew Bible the tradition of Wisdom as a creative force Wisdom texts are common across the ancient Near East As the idea of creative Wisdom develops from antiquity into the middle ages it gathers philosophical influences from a range of philosophical traditions This exuberantly promiscuous impurity intellectual artistic and theological generates new interpretive possibilities In these interpretations each human like figure opens up onto the world's matter as an interdependent part of it and matter is thoroughly mixed with divinity Such mythic readings complement our factual scientific understanding of the material world to engage wider kinds of knowing and affective attention particularly Wisdom's combination of care and delight
