

The diagrams below show structures formed during human reproduction.

15.1 Identify part A. (1)

15.2 Name the organelle found in large numbers in part C. (1)

15.3 Give the NUMBER (1) only of the diagram that represents the following:

(a) Morula (1)

(b) Structure that will implant in the uterus (1)

(c) Blastula/Gastrula

15.4 Give the LETTER and NAME of the part that occurs during fertilisation. (2)

15.5 Name the type of cell division that occurred to produce the structures in Diagram 5. (1)

Question 16

The diagrams below represent the structures of an ovum and a sperm.

16.1 Identify parts:

(a) A (1)

(b) B (1)

(c) C (1)

16.2 Name the process involving meiosis that leads to the formation of an ovum. (1)

16.3 Write down only the LETTER of the part of the sperm that enters the ovum. (1)

16.4 Write down only the LETTERS of TWO parts that enable the sperm to move towards the ovum. (2)

Applying Data Science and Learning Analytics Throughout a Learner's Lifespan Trajkovski, Goran, Demeter, Marylee, Hayes, Heather, 2022-05-06 Research in the domains of learning analytics and educational data mining has prototyped an approach where methodologies from data science and machine learning are used to gain insights into the learning process by using large amounts of data As many training and academic institutions are maturing in their data driven decision making useful scalable and interesting trends are emerging Organizations can benefit from sharing information on those efforts Applying Data Science and Learning Analytics Throughout a Learner's Lifespan examines novel and emerging applications of data science and sister disciplines for gaining insights from data to inform interventions into learners journeys and interactions with academic institutions Data is collected at various times and places throughout a learner's lifecycle and the learners and the institution should benefit from the insights and knowledge gained from this data Covering topics such as learning analytics dashboards text network analysis and employment recruitment this book is an indispensable resource for educators computer scientists faculty of higher education government officials educational administration students of higher education pre service teachers business professionals researchers and

academicians *Ramified Natural Theology in Science and Religion* Rodney Holder, 2020-10-15 This book offers a rationale for a new ramified natural theology that is in dialogue with both science and historical critical study of the Bible Traditionally knowledge of God has been seen to come from two sources nature and revelation However a rigid separation between these sources cannot be maintained since what purports to be revelation cannot be accepted without qualification rational argument is needed to infer both the existence of God from nature and the particular truth claims of the Christian faith from the Bible Hence the distinction between bare natural theology and ramified natural theology The book begins with bare natural theology as background to its main focus on ramified natural theology Bayesian confirmation theory is utilised to evaluate competing hypotheses in both cases in a similar manner to that by which competing hypotheses in science can be evaluated on the basis of empirical data In this way a case is built up for the rationality of a Christian theist worldview Addressing issues of science theology and revelation in a new framework this book will be of keen interest to scholars working in Religion and Science Natural Theology Philosophy of Religion Biblical Studies Systematic Theology and Science and Culture *Stem Cell Battles* D. O. N. C. REED, 2015-10-06 This is a one of a kind book combining easy to understand science in the trenches political warfare and inspirational stories It aims to give hope to individuals and families who suffer from chronic disease or disability to point out how ordinary people can make an extraordinary difference in the battle to ease suffering and save lives through supporting medical research to share in people talk some of the amazing progress already achieved in the new field of stem cell research to show how even such a magnificent success as the California stem cell program is under constant attack from ideological groups to offer medical research as a force for international cooperation to suggest how cure research lessens the need for the mountainous costs of endless care Unparalleled background the author has been involved in virtually every important stem cell battle state national and international since embryonic stem cell research began The author works closely with Robert N Klein sponsor of the California stem cell program the largest source of such stem cell research funding in the world In addition the author is an award winning teacher as well as writer and seeks to entertain as well as educate His book is not only substantive but also fun The book would be a treasured gift for anyone suffering an incurable illness or who is a caregiver for a loved one for a college student considering a rewarding career in biomedicine for scientists who want to protect and enhance their research funding and for anyone who wants to see government respond to the needs of its citizenry Chronic disease and disability are a prison cure is the triumphant escape wheelchairs should be for temporary occupancy only *The Oxford Handbook of Digital Technologies and Mental Health* Marc N. Potenza, Kyle Faust, David Faust, 2020-08-17 Digital technology use whether on smartphones tablets laptops or other devices is prevalent across cultures Certain types and patterns of digital technology use have been associated with mental health concerns but these technologies also have the potential to improve mental health through the gathering of information by targeting interventions and through delivery of care to remote areas The Oxford Handbook of Digital Technologies and

Mental Health provides a comprehensive and authoritative review of the relationships between mental health and digital technology use including how such technologies may be harnessed to improve mental health Understanding the positive and negative correlates of the use of digital technologies has significant personal and public health implications and as such this volume explores in unparalleled depth the historical and cultural contexts in which technology use has evolved conceptual issues surrounding digital technologies potential positive and potential negative impacts of such use treatment assessment and legal considerations around digital technologies and mental health technology use in specific populations the use of digital technologies to treat psychosocial disorders and the treatment of problematic internet use and gaming With chapters contributed by leading scientists from around the world this Handbook will be of interest to those in medical and university settings students and clinicians and policymakers

The First Global Integrated Marine Assessment United Nations,2017-04-17 The World Ocean Assessment or to give its full title The First Global Integrated Marine Assessment is the outcome of the first cycle of the United Nations Regular Process for Global Reporting and Assessment of the State of the Marine Environment including Socioeconomic Aspects The Assessment provides vital scientifically grounded bases for the consideration of ocean issues including climate change by governments intergovernmental agencies non governmental agencies and all other stakeholders and policymakers involved in ocean affairs Together with future assessments and related initiatives it will support the implementation of the recently adopted 2030 Agenda for Sustainable Development particularly its ocean related goals Moreover it will also form an important reference text for marine science courses

Insights in Health Economics: 2021 Mihajlo Jakovljevic,Seiritsu Ogura,2022-08-30 **The Impact of Music on Human Development and Well-Being** Michele Biasutti,Graham F. Welch,Jennifer MacRitchie,Gary E. McPherson,Evangelos

Himonides,2020-07-17 Music is one of the most universal ways of expression and communication in human life and is present in the everyday lives of people of all ages and from all cultures around the world Music represents an enjoyable activity in and of itself but its influence goes beyond simple amusement Listening to music singing playing composing and improvising individually and collectively are common activities for many people these activities not only allow the expression of personal inner states and feelings but also can bring many positive effects to those who engage in them There is an increasing wealth of literature concerning the wider benefits of musical activity and research in the sciences associated with music suggests that there are many dimensions of human life physical social psychological including cognitive and emotional which can be affected positively by music The impact that musical activity has on human life can be found in different processes including a transfer of learning from the musical to another cognitive domain Abilities that have been developed through music education and training may also be effectively applied in other cognitive tasks Engagement in successful music activity may also have a positive impact on social skills and social inclusion thus supporting the participation of the individual in collective and collaborative musical events The promotion of social participation through music can foster many kinds of inclusion

including intercultural intergenerational and support for those who are differently abled The aim of this Research Topic is to present a diverse range of original articles that investigate and discuss in different ways the crucial role that musical activity can play in human development and well being

The Loss of Small White Clouds Morgan Batch, 2023-08-09 This volume seeks to instigate a discussion about dementia in theatre The discussions in this book borrow from the literature on dementia s representation in other artforms while reflecting on theatre s unique capacity to incorporate multiple artforms in a live context hypermediacy The author examines constructions of diegesis and the use of various performance tools including physical theatre puppetry and postdramatic performance She discusses stage representations of interior experiences of dementia selfhood in dementia the demarcation of those with dementia from those without endings erasure and the pursuit of catharsis placelessness and disruptions of traditional dramatic constructions of time and ultimately performances creatively led by people with dementia The book traces patterns of narrativisation on the stage including common dramaturgical forms settings and character relationships as well as examples that transcend mainstream representation This book is important reading for theatre and performance students scholars and practitioners as well as cultural studies writers engaged in research about narratives of dementia

Criticality as a signature of healthy neural systems: multi-scale experimental and computational studies Paolo Massobrio, Lucilla de Arcangelis, Valentina Pasquale, Henrik Jeldtoft Jensen, Dietmar Plenz, 2015-05-08 Since 2003 when spontaneous activity in cortical slices was first found to follow scale free statistical distributions in size and duration increasing experimental evidences and theoretical models have been reported in the literature supporting the emergence of evidence of scale invariance in the cortex Although strongly debated such results refer to many different in vitro and in vivo preparations awake monkeys anesthetized rats and cats in vitro slices and dissociated cultures suggesting that power law distributions and scale free correlations are a very general and robust feature of cortical activity that has been conserved across species as specific substrate for information storage transmission and processing Equally important is that the features reminiscent of scale invariance and criticality are observed at scale spanning from the level of interacting arrays of neurons all the way up to correlations across the entire brain Thus if we accept that the brain operates near a critical point little is known about the causes and or consequences of a loss of criticality and its relation with brain diseases e g epilepsy The study of how pathogenetical mechanisms are related to the critical non critical behavior of neuronal networks would likely provide new insights into the cellular and synaptic determinants of the emergence of critical like dynamics and structures in neural systems At the same time the relation between the impaired behavior and the disruption of criticality would help clarify its role in normal brain function The main objective of this Research Topic is to investigate the emergence disruption of the emergent critical like states in healthy impaired neural systems

China's Green Consensus Virginie Arantes, 2022-09-09 Despite contrasting approaches democratic and authoritarian governments all underline the fact that environmental protection is crucial and inevitable and China s

enthusiasm in stepping up its efforts to protect the environment has not gone unnoticed This book highlights how the consensual orchestration of sustainability in China s biggest city Shanghai affects non state actors ways of perceiving acting and organizing around environmental issues China s Green Consensus examines grassroots realities as they intersect with events of everyday life offering insights into areas that far transcend debates over coercive forms of environmentalism and exploring the soft and green facets of President Xi Jinping s authoritarian approach to governance The importance of environmental protection in people s lives serves as a lens to analyze and understand authoritarian adaptations to environmental global phenomena Arantes highlights how through mobilization and de politicization a green consensus leads to the displacement of state responsibilities and the cultivation of civil society in its own image In so doing she opens up new ways of thinking about the complexities of environmental governance consensus politics subject making and citizenship in authoritarian contexts This book will be of interest to scholars and students of Chinese society and politics environmental politics political ecology international relations and urbanization in Asia as well as all others interested in the rising appeal of authoritarianism around the globe

Dictionary of Christianity and Science Zondervan, 2017-04-25 The definitive reference work on science and Christian belief How does Christian theology relate to scientific inquiry What are the competing philosophies of science and do they work with a Christian faith based on the Bible No reference work has covered this terrain sufficiently until now Featuring entries from over 140 international contributors the Dictionary of Christianity and Science is a deeply researched peer reviewed fair minded work that illuminates the intersection of science and Christian belief In one volume you get reliable summaries and critical analyses of over 450 relevant concepts theories terms movements individuals and debates You will find answers to your toughest questions about faith and science from the existence of Adam and Eve to the age of the earth evolution and string theory FEATURES INCLUDE Over 450 entries that will help you think through some of today s most challenging scientific topics including climate change evolution bioethics and much more Essays from over 140 leading international scholars including Francis Beckwith Michael Behe Darrell Bock William Lane Craig Hugh Ross Craig Keener Davis Young John Walton and many more Multiple view essays on controversial topics allow you to understand and compare differing Christian viewpoints Learn about flesh and blood figures who have shaped the interaction of science and religion Augustine Aquinas Bacon Darwin and Stephen Hawking are just the beginning Fully cross referenced entries include references and recommendations for further reading Advance Praise Every Christian studying science will want a copy within arm s reach Scot McKnight Northern Seminary This is an invaluable resource that belongs in every Christian s library I will be keeping my copy close by when I m writing Lee Strobel Elizabeth and John Gibson chair of apologetics Houston Baptist University Sparkles with passion controversy and diverse perspectives Karl Giberson professor of science and religion Stonehill College An impressive resource that presents a broad range of topics from a broad tent of evangelical scholars Michael R Licona Houston Baptist University I am certain that this dictionary will

serve the church for many years in leading many to demonstrate that modern science can glorify our Creator and honor his creation Denis O Lamoureux University of Alberta Dictionary is too humble a label for what this is I anticipate that this will offer valuable guidance for Christian faithfulness C John Collins Covenant Theological Seminary Get answers to the difficult questions surround faith and science Adam and Eve the Age of the Earth Climate Change Evolution Fossil Record Genesis Flood Miracles Cosmology Big Bang theory Bioethics Darwinism Death Extraterrestrial Life Multiverse String theory and much much more

Emotional Intelligence - Understanding, Influencing, and Utilizing Emotions Éric Laurent, 2024-07-10 Intelligence has long been a focal point and an explanatory framework of performance and behavior for researchers in psychology and cognitive science However the concept of intelligence has been explored through various metaphors and models In 1990 Salovey and Mayer coined the term emotional intelligence EI with respect to a set of processes consisting of identifying and regulating emotions and more generally adapting behavior to this emotional context Three decades later this book compiles seven chapters introducing the most influential models of emotional intelligence stressing the developmental trajectories that are related to EI dynamics as individuals age and delving into cognitive and neural activities associated with EI Additionally the book discusses the application of EI research to the contexts of everyday life choices economic decision making and neuropsychological practice Altogether the various chapters also provide the opportunity to reconsider the intricate nature of what has often been considered separately as cognitive and affective processes

Spacematrix Meta Berghauser Pont, Per Haupt, 2023-05-23 Spacematrix explores the potential of urban density as a tool for urban planning and design This revised and extended edition of Meta Berghauser Pont and Per Haupt's 2010 volume includes an extensive analysis of the relations between density urban form and performance a prerequisite for understanding and successfully predicting the effects of specific designs and planning proposals The density database that is an integral part of the book has been expanded and now includes 142 examples from five capitals in Europe as well as examples from Asia Berghauser Pont and Haupt demystify the use of concepts such as urbanity compact city and park city by challenging the reliability of such concepts and critically examining the possibility of redefining them through quantification using multiple density measures Spacematrix is of interest to professionals working in the field of urbanism such as architects urban planners and designers as well as developers economists engineers and policymakers It also offers researchers a method to quantitatively describe urban form and connect this to a wide range of performances

The Wizard and the Prophet Charles Mann, 2019-04-16 From the bestselling award winning author of 1491 and 1493 an incisive portrait of the two little known twentieth century scientists Norman Borlaug and William Vogt whose diametrically opposed views shaped our ideas about the environment laying the groundwork for how people in the twenty first century will choose to live in tomorrow's world In forty years Earth's population will reach ten billion Can our world support that What kind of world will it be Those answering these questions generally fall into two deeply divided groups Wizards and Prophets as Charles Mann calls them in this balanced authoritative

nonpolemical new book *The Prophets* he explains follow William Vogt a founding environmentalist who believed that in using more than our planet has to give our prosperity will lead us to ruin Cut back was his mantra Otherwise everyone will lose *The Wizards* are the heirs of Norman Borlaug whose research in effect wrangled the world in service to our species to produce modern high yield crops that then saved millions from starvation Innovate was Borlaug s cry Only in that way can everyone win Mann delves into these diverging viewpoints to assess the four great challenges humanity faces food water energy climate change grounding each in historical context and weighing the options for the future With our civilization on the line the author s insightful analysis is an essential addition to the urgent conversation about how our children will fare on an increasingly crowded Earth

Immerse yourself in the artistry of words with Crafted by is expressive creation, **Life Science Prelim Question Paper 2014**. This ebook, presented in a PDF format (Download in PDF: *), is a masterpiece that goes beyond conventional storytelling. Indulge your senses in prose, poetry, and knowledge.
