Education in Vietnam Martin Hayden,Thi Le Tran,2024-08-02
Offering insights into the current and projected future state of the education system in Vietnam this edited volume is an authoritative sourcebook for scholars policy analysts academic staff and students Vietnam is well on its way to joining the dress circle of high achieving education nations in Asia International surveys of the academic aptitude and ability of the

nation's youth consistently place it well above relevant regional and global averages. This accomplishment is remarkable for a country with a gross domestic product per capita of only US 2 785 in 2020. The dynamics of Vietnam's national education system are comprehensively documented in the book. Each of the country's education sectors is critically appraised as well as the culture of education in Vietnam. Specific issues concerning funding and equity, quality and accreditation, the teaching of curriculum areas, the internationalisation of the system and the provision of educational opportunities for young people with disabilities are carefully analysed against a background of relevant global trends. With contributions from well established and highly respected local experts with high aspirations for the future development of the national education system in Vietnam, this book will be a must read for academics and students of Southeast Asian studies and comparative education.
