**The Ground of Professional Ethics** Daryl Koehn, 2006-05-23 As each week brings more stories of doctors lawyers and other professionals abusing their powers while clients demand extra services as at a time of shrinking resources it is imperative that all practising professionals have an understanding of professional ethics In *The Ground of Professional Ethics* Daryl Koehn discusses the practical issues in depth such as the level of service clients can justifiably expect from professionals when service to a client may be legitimately terminated and circumstances in which client confidences can be broken She argues that while clients may legitimately expect professionals to promote their interests professionals are not morally bound to do whatever a client wants *The Ground of Professional Ethics* is important reading for all practising professionals as well as those who study or have an interest in the subject of professional ethics

**A Quarter Century of Value Inquiry** Richard T. Hull, 2021-11-01 This volume contains all of the presidential addresses given before the American Society for Value Inquiry since its first meeting in 1970 Contributions are by Richard Brandt Virgil Aldrich John W Davis the late Robert S Hartman James B Wilbur the late William H Werkmeister Robert E Carter the late William T Blackstone Gene James Eva Huel Cadwallader Richard T Hull Norman Bowie Stephen White Burton Leiser Abraham Edel Sidney Axinn Robert Ginsberg Patricia Werhane Lisa M Newton Thomas Magnell Sander Lee John M Abbarno Ruth Miller Lucier and Tom Regan Autobiographical sketches by all of the living contributors and one recently deceased biographical statements of the remainder together with photographic portraits of all the contributors make this volume a unique record of value inquiry during the past quarter century indicates previously unpublished or unpublished in the present form indicates substantial new material has been added The addresses cover diverse topics from broad general ones to value inquiry into literature bioethics and public policy to philosophy of mind to critical studies of other philosophers work defenses of philosophy and of applied ethics individual role and cultural relativism of values The American Society for Value Inquiry is nearing its 25th anniversary Its leadership is elected annually often with a vice president becoming president elect then president then past president a structure that serves to insure a measure of continuity Its members are drawn to the society not by a particularly credo or ideology or philosophical position but by a common interest in questions of value ranging from abstract meta value inquiry to disciplinary and trans disciplinary value inquiry For those who share this range of passions the volume will preserve collect organize and in a number of cases recover material in danger of being lost to them The Presidential Address is a unique genre resembling in some ways a sermon Indeed preparing a presidential address before a philosophical society is often an exercise in developing an exhortation to members to take up a neglected topic to embrace as important a particular viewpoint it may as well be a cautionary to avoid a particular error It is often a dramatic moment as a

last act of the presidency having observed closely the trends and winds blowing through the discipline the speaker is afforded the opportunity to hold forth on a topic at once intensely personal and believed to be of wide interest While some societies publish presidential addresses in newsletters or informal proceedings and occasionally in professional bulletins or journals rarely have a substantial bloc of a society's presidential addresses been collected and published under one cover Too often the presidential address is delivered discussed by those present perhaps summarized in a paragraph in a newsletter to members and filed as a fond memory of a moment of honor in the papers of the author sometimes to be forgotten lost discarded or otherwise removed from availability to scholars of the history of philosophy This volume inaugurates a series aiming at preserving presidential and other major addresses before philosophical societies It seeks to be a historical record not only of the address but also of the reflections and recollections of the author It seeks to preserve as a part of the historical record a photograph of the author And with the personal character of an autobiographical statement it seeks to humanize and render lively and real the profession
