companion to The Collected Works of Thomas Middleton which every scholar of Renaissance literature will find indispensable. It is also essential reading for anyone interested in the history of the book in early modern Europe. The book is divided into two parts. The first part on The Culture situates Middleton within an historical and theoretical overview of early modern textual production, reproduction, circulation and reception. An introductory essay by Gary Taylor, The Order of Persons, surveys lists of persons written by or connected to Middleton using the complex relationship between textual and social orders to trace the evolution of textual culture in England during the Middleton century 1580-1679. Ten original essays then focus on Middleton's connections to different aspects of textual culture in that century: authorship by MacD P Jackson; manuscripts Harold Love; legal texts Edward Geiskes; censorship Richard Burt; printing Adrian Weiss; visual texts John Astington; music Andrew Sabol; stationers and living authors Cyndia Clegg; posthumous publishing Maureen Bell; and early readers John Jowett. The second part, The Texts, supplies the documentation for claims made in the first part. This includes detailed evidence for the canon and chronology of Middleton's works in all genres, greatly extending previous scholarship and using the latest corpus-based attribution techniques. A full editorial apparatus is supplied for each item in The Collected Works: an Introduction which summarizes and extends previous scholarship is followed by textual notes recording substantive departures from the control text; variants between early texts; press variants; discussions of emendations; and for plays, an exact transcription of all original stage directions. Cross references make it easy to move between the two volumes. This authoritative account of the early texts includes some extraordinarily complicated cases which have never before been systematically collated. Hence all you vain delights, the most popular song lyric from the Renaissance stage. The Two Gates of Salvation, The Peacemaker and A Game at Chess, the most complex editorial problem in early modern drama with eight extant texts and numerous reports of the early performances.
