Managing Innovation and New Product Development CHATURVEDI, MUKESH, KUMAR, ASEEM, RAHUL, MANMOHAN, 2009-04-13 Innovation is the key to success in any business and is the only way to surpass competition. An innovative concept can lead to the development of a new product. This comprehensive book explains how an innovative idea or a concept if executed properly can create the best product in the market. The book presents a framework for a new product development laying emphasis on generic concepts and processes which are useful and profitable for small and large organizations including the multinationals. The book highlights the innovation theories that are helping service sector companies to prosper and excel in their fields. It also provides a mathematical formula for students to calculate sales estimation of first time sales of a new product. The Ten Case Studies on real life products from the Indian market enrich the text and enable students to fully understand innovative techniques that help increase the potential and market value of an established product. Key Features: Gives a number of examples to illustrate the concepts discussed in the text. Incorporates several illustrative figures, tables and boxes to make the learning process more accessible. Provides well graded chapter end exercises to test students.

Gender and Consumption Lydia Martens, Emma Casey, 2016-04-15 Drawing upon anthropological, sociological and historical perspectives, this volume provides a unique insight into women's domestic consumption. The contributors argue that domestic consumption represents an important lens through which to examine the everyday production and reproduction of socio-economic relations. Through a variety of case studies such as gambling, wedding day consumption and bedroom decor, the

essays explore and reconsider the nature of public and private spaces and the subsequent nature of domestic space often by challenging traditional notions of what constitutes the domestic The volume demonstrates the broad range of experiences that domestic consumption offers women and reveals some of the complex meanings and motivations underpinning women's consumption practices

Rethinking Class in Russia Dr Suvi Salmenniemi, 2013-01-28 Social differentiation poverty and the emergence of the newly rich occasioned by the collapse of the Soviet Union have seldom been analysed from a class perspective *Rethinking Class in Russia* addresses this absence by exploring the manner in which class positions are constructed and negotiated in the new Russia Bringing an ethnographic and cultural studies approach to the topic this book demonstrates that class is a central axis along which power and inequality are organized in Russia revealing how symbolic cultural and emotional dimensions are deeply intertwined with economic and material inequalities Thematically arranged and presenting the latest empirical research this interdisciplinary volume brings together work from both Western and Russian scholars on a range of spheres and practices including popular culture politics social policy consumption education work family and everyday life By engaging with discussions in new class analysis and by highlighting how the logic of global neoliberal capitalism is appropriated and negotiated vis vis the Soviet hierarchies of value and worth this book offers a multifaceted and carefully contextualized picture of class relations and identities in contemporary Russia and makes a contribution to the theorisation of class and inequality in a post Cold War era As such it will appeal to those with interests in sociology anthropology geography political science gender studies Russian and Eastern European studies and media and cultural studies

Scanner Data and Price Indexes Robert C. Feenstra, Matthew D. Shapiro, 2007-11-01 Every time you buy a can of tuna or a new television its bar code is scanned to record its price and other information These scanner data offer a number of attractive features for economists and statisticians because they are collected continuously are available quickly and record prices for all items sold not just a statistical sample But scanner data also present a number of difficulties for current statistical systems *Scanner Data and Price Indexes* assesses both the promise and the challenges of using scanner data to produce economic statistics Three papers present the results of work in progress at statistical agencies in the U S United Kingdom and Canada including a project at the U S Bureau of Labor Statistics to investigate the feasibility of incorporating scanner data into the monthly Consumer Price Index Other papers demonstrate the enormous potential of using scanner data to test economic theories and estimate the parameters of economic models and provide solutions for some of the problems that arise when using scanner data such as dealing with missing data
