 throughout the history of Western civilization from the hieroglyphs of ancient Egypt to the poetry of Dylan Thomas It supplies
 background information from fields which may not be everyone s speciality such as biology and mythology It gives not one
 but several meanings which may apply simultaneously since indefiniteness is the mark of symbols No fine distinction is made
 between symbols allegories metaphors signs types or images since such subtle distinctions however sensible from a scientific
 point of view are useless to a person struggling with the deeper comprehension and thus appreciation of a particular symbol
 Important general entries are listed such as archetypes ass binary bull calendar eagle elements Great Goddess Sacred King
 sun etc which it is advisable to read first Information was gathered from primary sources both famous and obscure classical
 authors the Bible the medieval scholar and musician Hildegard von Bingen but also Donne Shakespeare and Eliot Lists of
 primary and secondary literature are included From the many notes left behind by the late Ad de Vries his son has gathered
 enough new material to enlarge the original 1974 edition more than 20 per cent Included are many new entries taken from
 herbals and lapidaries as well as ancient books on medicine architecture and dreams This dictionary is an invaluable source
 of reference for students of many disciplines as well as for writers and artists
