On the first day of my practicum exercise, after meeting the department manager, I was asked to wait for my preceptor who has to take me through the entire practicum exercise. As I waited for my preceptor, I noticed she was out of the office having spontaneous engagement. After meeting with my preceptor she played significant roles regarding my practicum exercise. The first thing was introducing me to various departments. This gave me the opportunity of meeting the departmental personnel as well. This introduction was essential because, it enable me to familiarize myself with the clinical environment. During this exercise I managed to make an observation practice that regards evidence bias on hygiene among care providers. Later on I had a conversation with my preceptor regarding hygiene among care providers (Rutledge, 2011).

My preceptor prepared me for the need to ensure hygiene in health institutions to reduce infections. My preceptor also gave me information regarding departments that ensure hand hygiene and how important it is. Hand hygiene helps to reduce hospital acquired infection. A meeting where I participated was held to discuss ways to sustain hand washing programs. At the meeting, it was suggested that, to ensure hygiene, hand washing materials have to be available to the employees in every department (Beauchesne, 2010). I then presented my practicum manual to the preceptor. The preceptor explained her role in this exercise and also asked me to let her know of my goals expectations in the next meeting.
