Handbook of Theory and Practice of Sustainable Development in Higher Education Walter Leal

Filho, Constantina Skanavis, Arminda do Paço, Judy Rogers, Olga Kuznetsova, Paula Castro, 2016-11-23 This Handbook approaches sustainable development in higher education from an integrated perspective addressing the dearth of publications on the subject. It offers a unique overview of what universities around the world are doing to implement sustainable development i.e. via curriculum innovation, research activities or practical projects and how their efforts relate to education for sustainable development at the university level. The Handbook gathers a wealth of information, ideas, best practices and lessons learned in the context of executing concrete projects and assesses methodological approaches to integrating the topic of sustainable development in university curricula. Lastly, it documents and disseminates the veritable treasure trove of practical experience currently available on sustainability in higher education. Lugalla: Rethinking Teacher Education, 2023-06-27 Rethinking Teacher Education Improvement. Innovation and Change is the result of the conference organised by The Aga Khan University Institute for Educational Development East Africa (AKU IED EA) on education in Uganda in 2017. The Conference gathered participants from nine countries to deliberate on a cross section of factors regarding teacher education in the region and landscaping the same on global perspectives. The choice of the conference theme was inspired by a need to consider new systems, policies, structures and reforms to help drive sustainable education for the development of nations in the East African region. A variety of contributors participated from across the education landscape and included researchers working in higher education, practitioners such as teachers in schools, tutors, instructors in colleges and lecturers and professors at universities. Also contributing were non-governmental organisations with interests in education and student learning outcomes, civil society organisations whose interests navigate the role education plays in social and national development, policy makers and curriculum developers, librarians, publishers, booksellers and teacher trainees, all of who shared their rich experiences and perspectives on teacher education in the 21st century in East Africa and globally. *Higher Education and Sustainability* Ulisses Manuel de Miranda Azeiteiro, J. Paulo Davim, 2019-08-30 The book provides descriptions of experiences from research and educational sustainability projects and the role HEIs can play together with contributions presenting a variety of initiatives showing how SDGs are being implemented. The book promotes the theoretical and practical understanding on this thematic and disseminates knowledge and international research and cooperation. Contributions cover the role of SDGs in advancing implementation of sustainable development, sustainability in higher education, the role of universities in sustainable development, new paths towards sustainable development and e-learning contributions. Features: Focuses on theoretical and practical understanding on Sustainability Higher Education and SDGs to disseminate knowledge and promote research and cooperation. Includes lessons learned from sustainability research and educational challenges, presenting case studies, technological developments, outputs
