## Learning with Legos Multiplication Common Core Standards

- 3.OA.1** – Interpret products of whole numbers e.g., interpret  $5 \times 7$  as the total number of objects in 5 groups of 7 objects; describe a context in which a total number of objects can be expressed as  $5 \times 7$ .
- 3.OA.5** – Apply properties of operations as strategies to multiply and divide. **Illustrative Example:** Find  $6 \times 4$ . Use the Commutative Property of Multiplication:  $3 \times 5 \times 2$  can be found by  $3 \times 5 = 15$ , then  $15 \times 2 = 30$ , or by  $3 \times 10 = 30$ , then  $30 \div 2 = 15$ . **Associative Property of Multiplication:** Knowing that  $8 \times 5 = 40$  and  $8 \times 2 = 16$ , can find  $8 \times 7$  as  $8 \times (5 + 2) = (8 \times 5) + (8 \times 2) = 40 + 16 = 56$  (Distributive Property of Multiplication).
- 3.OA.7** – Fluently multiply and divide within 100, using strategies such as the relationship between multiplication and division (e.g., knowing that  $8 \times 5 = 40$ , one knows that  $40 \div 5 = 8$ ) or properties of operations. By the end of Grade 3, know from memory all products of two one-digit numbers.

## Learning with Legos Multiplication Common Core

**Activity 4:** Independent practice. Students will use the Lego picture arrays on their activity sheet to do this activity, but they also use the actual Lego pieces if needed. Students will look at the picture array. They will label each side and put a multiplication sign in the top left corner. Then, they will write repeated addition sentence and a multiplication sentence for each Lego picture array. On their activity sheet, they are reminded that the number of rows (down) is the first factor written and the number in each row (across) is the second factor. The worksheet pages for this activity can be laminated for repeated use, or printed double-sided for use at a math station.

Common Core Math 3.OA.7 only requires students to know all one-digit numbers fluently. But by practicing them through 12, they are building understanding for the distributive property.

Thank you for downloading my *Learning with Legos – Multiplication  $\times 7$*  learning activities. I teach 3rd grade math and am always looking for new ways to engage my students in learning their multiplication facts. I will have focused, specific practice on the fact they are currently working on. If you like these activities, look for the others in the future. Please remember to leave feedback if you have purchased them. I will still do consistent timed tests, but am hoping these activities will help them build the confidence in multiplication. They will then be able to transfer this knowledge to new learning such as area, perimeter, fractions, division, distributive property, and more. Please remember to check out my other Common Core products, too. *3rd Grade Math Series of Multiplication Facts Set*, and *Ultimate Teacher Planners* are a few teacher favorites worth previewing.
