

# MSCES THESIS/PROJECT REPORT WRITING GUIDELINES

(For more details, please go to the Graduate Studies Office's website:  
<http://www.sonoma.edu/programs/ile/gs/guidelines/toc.htm>)

## GENERAL FORMAT INSTRUCTIONS

All master's theses/projects must follow certain basic style and format guidelines and also adhere to basic standards of clear, correct English and careful presentation. Students are encouraged to hire a professional typist or editor to assist in the preparation of the final draft.

Students are warned not to follow the style and format of a thesis completed earlier at Sonoma State University or elsewhere. It may not have been properly prepared, or what was previously acceptable may not meet present requirements. Students should be sure that they are using the current SSU Guidelines for Master's Theses and Projects and not a previous edition of this booklet. Students should check with the Graduate Studies Office or the Thesis Review Office to make sure they are working with the most recent edition.

## Basic Appearance

**Computer/Printer:** Students are expected to use computer word processing software to prepare the thesis/project. Laser printers are preferred, but letter-quality dot-matrix and ink jet printers may be used. Students are encouraged to submit a sample of their printer quality to the Thesis Review Office for final approval. The following requirements and restrictions should be noted:

- **Corrections:** Interlineations, strike-overs, excessively visible corrections, and smudged printing are not acceptable.
- **Type Face:** The type size should be either 10 or 12 point. A common font such as Geneva, Helvetica, Palatino, or Times should be used, and it must be dark and uniform throughout.
- **Proportional spacing** should be avoided. These type styles cause problems with centering, column alignment, and justified right margins.
- **Bold** type should be used sparingly. Outline, shadow, or similar "trick" forms are not allowed anywhere in the thesis/project. Type used for charts, graphs, drawings, tables, etc., may differ according to format and space requirements but should always remain consistent.
- **Italics** may be used for appropriate purposes, i.e., for foreign words or phrases, for book and journal titles, etc. Students may also choose to use underline in place of italics. In either case, consistency of form is required.
