Build A Brand That Prints Money: Repeatable Identity That Converts On Autopilot Sybex Books, 2025-06-22 Brands aren't logos. They're feelings. They're gut decisions people make in your favor because your identity is so clear they can't unsee you. Build A Brand That Prints Money is a masterclass in creating a magnetic brand that sells your offers without your constant presence. This isn't about trends or superficial aesthetics; it's about building a repeatable identity so potent, so resonant, and so emotionally sticky that people remember you, trust you, and buy from you again and again. Inside this book, you'll learn how to extract the essence of what you do, who you're for, and why it matters, and package it into a brand that cuts through noise and creates loyal demand. You'll discover how to clarify your brand promise, position your message with conviction, and build simple assets that create high converting consistency without exhausting you. Whether you're just starting or reinventing your business identity, this guide will help you build a brand that works while you sleep. Because when your brand speaks clearly, you don't have to. When your message connects emotionally, you don't have to convince. When your positioning is undeniable, your content becomes effortless. This isn't about building an empire overnight; it's about building a brand that scales quietly and profits loudly.

[The Materiality of Writing](#) Christian Mosbæk Johannessen, Theo van Leeuwen, 2017-09-18 This book examines the materiality of writing. It adopts a multimodal approach to argue that writing as we know it is only a small part of the myriad gestures we make, practices we engage in, and media we use in the process of trace making. Taking a broad view of the act of writing, the volume features contributions from both established and up-and-coming scholars from around the world and incorporates a range of methodological and theoretical perspectives from fields such as linguistics, philosophy, psychology of perception, design, and semiotics. This interdisciplinary framework allows readers to see the relationships between writing and other forms of trace making, including architectural drawings, graphic shapes, and commercial logos, and between writing and reading, with a number of illustrations highlighting the visual data used in the forms and studies discussed. The book also looks forward to the future, discussing digital media and new technology and their implications for trace making. This pioneering volume will be of interest to scholars and researchers in multimodality, literacy, cognitive neuroscience, design theory, discourse analysis, and applied linguistics.
