**Interactive Evaluation Practice** Jean A. King, Laurie Stevahn, 2012-04-12 You're about to start your first evaluation project. Where do you begin? Or you're a practicing evaluator faced with a challenging situation. How do you proceed? How do you handle the interactive components and processes inherent in evaluation practice? Use *Interactive Evaluation Practice* to bridge the gap between the theory of evaluation and its practice. Taking an applied approach, this book provides readers with specific interactive skills needed in different evaluation settings and contexts. The authors illustrate multiple options for developing skills and choosing strategies systematically, highlighting the evaluator's three roles as decision maker, actor, and reflective practitioner. Case studies and interactive examples stimulate thinking about how to apply interactive skills across a variety of evaluation situations. From beginning to end, this book is an indispensable resource for those responsible for the evaluation process. In essence, here's a chance to learn from masters about acquiring mastery. What could be more useful?

Michael Quinn Patton, Author of *Utilization Focused Evaluation*. At long last, a book that explicitly addresses the importance of interpersonal dynamics in evaluation practice. As an evaluator who frequently interacts with a variety of stakeholders and who provides graduate-level evaluation training, I find *Interactive Evaluation Practice* to be an exceptional addition to the evaluation literature and a useful guide to interacting with various stakeholder groups.
