MCAT Biology and Biochemistry Strategy and Practice Bryan Schnedeker, Anthony Lafond, 2015-01-12 Next Step's MCAT Biology and Biochemistry Strategy and Practice prepares students for the updated MCAT Biological and Biochemical Foundations of Living Systems section April 2015 test dates and forward. With 490 pages of strategy tips and practice, this is a necessary resource for students looking to get timed practice working through MCAT-like sample passages. Readers will be able to test their knowledge by working through four full-length 59-question timed sections. Next Step's Strategy and Practice series provides structured timed drills for each section of the new exam. Please see our books for the chemistry, physics, CARS, verbal, and new psychology/sociology sections as well. Students looking for review of the core science content rather than drills should look into Next Step's Content Review books for each section of the exam.

MCAT Biology and Biochemistry Bryan Schnedeker, 2016-09 Get the most realistic practice available for the MCAT's Biological and Biochemical Foundations of Living Systems Section. Next Step's Strategy and Practice books give you a focused review of several different approaches to MCAT problems and then offer the single most important resource an MCAT student needs: full-timed section practice. Test your skills by completing practice sections and then build upon them with the most thorough explanations available in any MCAT prep book. Unlike most other books that simply give you an answer key and maybe a short description of the right answer, all of Next Step's Strategy and Practice books show you how to do a thorough breakdown of the passage itself and then follow that up with a careful analysis of the question and every answer choice. Those who purchase a Next Step book also get free access to our online MCAT diagnostic test.
