Fine-line or guilloche pattern

A pattern of continuously fine lines constructed by using two or more lines in overlapping bands that repeat a lac, web-like curve.

Ghost image

Half-tone reproduction of the original image that is typically printed in the same area as, and behind, personal data.

Overlay

An ultra-thin film or protective coating that may be applied to the surface of a card in place of a security laminate and which may contain optically variable features.

Tactile feature

A feature that is apparent to touch or feel without the use of a special instrument. This could include texture, flexibility, or weight of the document.

Transparent image

See-through, window-like feature visible from both sides of a document.

Laser embossing

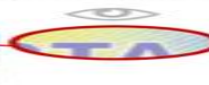

The unique use of a laser to emboss an image or data to rise only on one side of the card material.

Rainbow printing

Must demonstrate a controlled exacting color shift subtly in a continuous linear fashion.

Opacity mark

Similar to a watermark, it is a plastic that contains a unique translucent mark.

Variable laser image

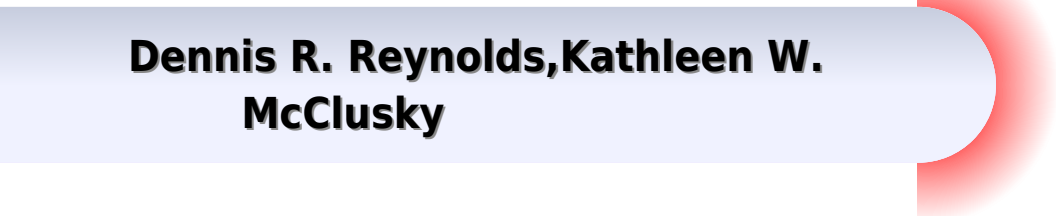

Laser-engraved image with tilting effect incorporated in plastic cards; images are engraved at different angles through an array of cylindrical lenses embossed into the surface of the card. Angle of view effects a change.

The College Student's Guide to the Law C. L. Lindsay, 2005-05-26. Knowing how to post bail and get out of jail in fifteen minutes is darn handy for almost everyone. For a disoriented 18 year old who's found himself in a pinch it's downright necessary. College kids are naive, eager and prone to trouble and whether they're funneled beer or fighting sweatshop labor they need to know their rights. Just logging onto the university computer system for example opens a student to a host of legal questions about whether the school can monitor her email or her surfing habits or her blogs. But the amount of practical legal information available to the nation's 15 million college students is extremely limited and most students don't have ready access to lawyers. What they need is a handbook that will cover the issues they're likely to confront, a guide that is informative, easy to read and not embarrassing to have on their shelves. With a retro look and a humorous, approachable tone, **THE COLLEGE STUDENT'S GUIDE TO THE LAW** provides legal explanations, strategies for steering clear of problems and detailed instructions about how to deal with the authorities, both educational and municipal, when trouble can't be avoided. The book is divided into sections for easy access to information. **The Law in the Classroom** offers guidance on academic dishonesty, grading grievances and professor student relations. **The Law On Campus** discusses problems outside the classroom but on university turf, from privacy rights, whether in the dorms, on a hard drive or in the Registrar's Office, to interactions with campus security. **The Law Off Campus** provides advice on dealing with legal issues that are endemic to university life, such as underage drinking, policies, landlord tenant disputes and credit card use and abuse. **THE COLLEGE STUDENT'S GUIDE TO THE LAW** ranks with the shower caddy, the extra long twin sheet set and the mini fridge as an absolutely indispensable item for every college freshman. And every returning student who might contest a grade, plan a campus protest or sign an apa *Border Insecurity, Take Two* United States. Congress. Senate. Committee on Finance, 2006.
